Introduction

Fidelity Funds (the "Company") is an open-ended investment company established in Luxembourg as a société d'investissement à capital variable ("SICAV"). It has an umbrella structure and its assets are held in a number of different funds ("sub-funds"). Each sub-fund is a separate portfolio of securities and other assets managed in accordance with specific investment objectives. Separate classes of shares in the Company (the "Shares") are issued in relation to the sub-funds. Each sub-fund provides an investment opportunity in professionally managed pools of securities in different geographical areas and currencies, with the investment objective of capital growth, income or a balance between capital growth and income.

Shares are authorised for sale in a number of jurisdictions and may be listed on the Luxembourg Stock Exchange's Euro MTF market. However, shares in the Reserved Funds and the Institutional Reserved Funds are not presently listed. Further information on the stock exchange listings can be found on https://www.bourse.lu/official list or may be obtained from the Management Company upon request.

Swiss investors are advised that with the exception of the Asia Pacific Multi Asset Growth & Income Fund, Greater China Fund II, the Institutional Target Funds, Institutional European Larger Companies Fund, Sustainable Asia Equity II Fund, the present sub-funds of the Company have been authorised by the Swiss Financial Market Supervisory Authority for distribution in Switzerland.

Board of Directors

The Directors of the Company as at 31 October 2024 are listed on page 3. Seven of the nine Directors serving as at 31 October 2024 are considered non-executive Directors, three of whom are considered by the Board to be independent of the Investment Manager and free from any other relationship which could materially interfere with the exercise of their independent judgment.

There have been no changes to the Board of the Management Company during the period to 31 October 2024.

Conducting Officers

As at 31 October 2024 the Conducting Officers ("COs") appointed by FIL Investment Management (Luxembourg) S.A. ("FIMLUX") were as listed on page 3.

There has been the following change to the COs of FIMLUX during the period ended 31 October 2024:

- Ms Corinne Lamesch has tendered her resignation from her role as Conducting Officer ("CO") of FIMLUX, effective as of 31 August 2024.
- Ms Eliza Dungworth has been appointed as CO of FIMLUX, effective from 1 September 2024.

This Semi-Annual Report of the Company does not constitute an offer of Shares. Shares are offered on the basis of the information contained in the current Prospectus (and the documents referred to within it) supplemented by the last available Annual Report of the Company and any subsequently published Semi-Annual Report. Copies of the current Prospectus, latest Annual and Semi-Annual Reports and Portfolio Changes for the Company are available free of charge from the registered office of the Company or from any of the companies registered as distributors of the Company, or, for investors in Switzerland, from the Representative of the Company in Switzerland.

This Semi-Annual Report has been approved for circulation in the United Kingdom by FIL Investments International, UK distributor of the Company, authorised and regulated in the UK by the Financial Conduct Authority.

Directors and Conducting Officers

Board of Directors of Fidelity Funds as at 31 October 2024

Jeffrey Lagarce ^

Conducting Officer
Grand Duchy of Luxembourg

^Non-executive Director
* Considered by the Board to be Independent

Equity Markets

Global equities, as measured by the MSCI World Index, delivered positive returns over the six-month period ending October 2024. The strong performance was underpinned by resilient economic data, upbeat corporate earnings and increased optimism surrounding policy easing in major developed markets, which bolstered investor sentiment. During the first half of the period, markets exhibited robust performance, driven by falling inflation and heightened expectations of monetary easing in major developed economies. This led to expectations of moderating economic growth. However, the second half of the period was marked by considerable volatility. The Bank of Japan (BoJ)'s decision to increase interest rates, which led to a swift unwinding of leveraged global trades, along with elevated global geopolitical uncertainties, exerted downward pressure on markets. Nonetheless, market sentiment was buoyed after the US Federal Reserve (Fed) lowered interest rates by 50 basis points (bps), marking the first rate cut in four years. Additionally, stimulus measures in China, aimed at reviving economic activities in the region, were unveiled towards the end of the third-quarter, and this further supported market sentiment.

Against this global backdrop, US and Pacific ex-Japan equities gained the most, while equities in Japan and Europe ex-UK underperformed but ended in positive territory. Emerging markets also edged higher but underperformed their developed market peers. From a sector perspective, information technology (IT), utilities and financial companies were among the leading contributors, while energy stocks were the notable laggards. Overall, returns in US dollar terms were supported by its depreciation against the yen, the euro and sterling.

European equities rallied over the period, despite experiencing some volatility along the way. The markets were supported by optimism around interest rate cuts, although rising bond yields kept sentiment in check. As anticipated, the European Central Bank (ECB) reduced its key lending rates by 25 bps in June, followed by similar moves in September and October. The US Fed also began its monetary easing cycle with a 50 bps cut. Nevertheless, both central banks indicated a cautious, gradual approach to further easing. Although euro area GDP for the third-quarter increased by 0.4% (flash estimates for quarter-on-quarter), beating expectations of a 0.2% growth, threats of new trade tariffs from a potential Trump presidency in the US and escalating trade tensions with China weighed on sentiment.

UK equities rose, overcoming spells of volatility. Inflation and interest rate expectations remained in focus, providing mixed signals. Inflation moved closer to the Bank of England (BoE)'s 2.0% target, although persistently high services inflation kept rate cut expectations muted. Nevertheless, the BoE ultimately decided to cut its policy rate by 25 bps to 5.0% in July, marking the first rate cut in over four years. Market sentiment was, however, moderated by concerns over a potential recession in the US. Weakening domestic activity and uncertainty surrounding the UK's autumn budget also added to the risk. However, markets proved to be resilient, buoyed by easing signals from central banks and fresh stimulus measures in China. Political developments were also back in focus with the conclusion of the UK elections in July, which ended in a widely anticipated Labour majority, though this had little immediate impact on the market. Similarly, while the budget in October had a limited direct impact on equities, it put pressure on the UK government bond (Gilts) market as the government announced plans for additional borrowing.

US equities made gains despite facing significant market volatility. Lower inflation and expectations of interest rate cuts bolstered investor sentiment. However, escalating geopolitical tensions and the uncertainty around the US presidential election dampened some of that optimism. The market saw a shift as investors moved away from mega-cap technology companies towards smaller firms that are more sensitive to interest rate changes. In mid-September, the US Fed reduced interest rates by 50 bps, indicating increased confidence that inflation would return to target levels. This move prompted a market rally in September, driven by expectations of lower borrowing costs benefiting both consumers and corporations. However, in October, the S&P 500 index recorded its first monthly loss in six months. Investor expectations of further rate cuts were offset by resilient economic data and uncertainties surrounding post-election policies. Amid this environment, all sectors except energy saw gains, with utilities, IT and real estate stocks gaining the most.

The Japanese equity market fell slightly during the period. Profit taking and a strengthening yen against the US dollar weighed on market returns. Initially, the market was supported by central bank policy expectations, centred on the BoJ and the US Fed. After ending its negative interest rate policy and yield curve control in March 2024, which was the first time Japan tightened its monetary policy in nearly two decades, the BoJ raised the rate in July to 0.25%, after which it was kept unchanged for the rest of the period. The yen strengthened against the US dollar as investors positioned for a further narrowing of the interest-rate gap between the US and Japan following the Fed's rate cut in September. Meanwhile, upbeat earnings results, including from index heavyweights, accompanied by share buyback announcements supported stock prices. However, rising geopolitical concerns, especially in the Middle East, dampened investor sentiment during the period. Domestic political uncertainty also negatively impacted sentiment. While the Liberal Democratic Party elected Shigeru Ishiba as the next prime minister in September, the ruling coalition lost its parliamentary majority the following month, raising uncertainty over the path for policy and the economy. In terms of style, growth stocks outperformed value names

*The information stated in this report is historical and not necessarily indicative of future performance.

over the period. Among sectors, the defensive health care and communication services sectors led the gains, while real estate and consumer discretionary were the leading decliners.

Equities in the Pacific ex Japan region advanced over the period, driven by strong performances of the financial, consumer discretionary and IT sectors. The ASEAN region, notably equities in Singapore, performed strongly, driven by impressive performances from major banks and real estate investment trusts. Chinese and Hong Kong equities registered strong returns. Chinese authorities launched a comprehensive stimulus package in September to support the economy, which boosted market sentiment, particularly in onshore markets and sectors most exposed to the economic cycle. Taiwan's IT sector led the gains with artificial intelligence (AI)-related stocks in focus as investors took their cue following better-than-expected third-quarter earnings of AI chip designer Nvidia. Australian equities also ended the period higher.

Emerging markets (EMs) ended in positive territory over the period but underperformed developed markets. Sentiment oscillated sharply as global markets tackled elevated inflation in the developed world. The timeline for interest rate cuts, geopolitical tensions, and the pace of economic recovery in China also added to the volatility. Earlier in the period, encouraging economic trends such as rising commodity prices and strong performance of technology stocks boosted markets. Meanwhile, volatility persisted in anticipation of election results in three major emerging economies - India, South Africa and Mexico. In September, EM equities rallied, fuelled by the US Fed's 50 bps rate cut and the announcement of stimulus measures in China. However, towards the end of the period, equities retreated as investors grappled with high volatility amid a strong US dollar and concerns over the effectiveness of China's stimulus. Political uncertainty around the US elections also kept sentiment in check.

Bond markets

The global bonds market saw a period of volatility but ultimately yielded positive returns over the review period. The market began on a positive note, recovering from a significant sell-off earlier in the year. The US Treasury yields fell from their earlier highs after Fed Chairman Jerome Powell suggested that further increases in interest rates were unlikely. Favourable labour market conditions and encouraging inflation data in the US further bolstered market sentiment. Additionally, during an annual symposium in August, Powell indicated that the Fed would commence cutting interest rates, signalling a growing confidence over inflation returning to the Fed's target of 2.0%. However, the global economic narrative, particularly payroll and unemployment figures, became increasingly positive, causing investors to lower their expectations of rapid rate cuts from the Fed. The upcoming US elections, as well as a growing focus on fiscal policy risk and the UK government's announcement of additional borrowing in its budget, also contributed to market volatility. On the monetary policy front, the US Fed began its easing cycle with a 50 bps interest rate cut at its September meeting, while indicating a gradual pace of future rate cuts. Additionally, five central banks within the 'Group of 10' currency bloc (the Swiss National Bank, Riksbank, Bank of Canada, ECB, and the BoE) lowered interest rates during the period. Conversely, the BoJ raised its policy rate to 0.25% at its July meeting, leading to a significant spike in volatility. In the corporate credit space, both investment grade and high yield bonds yielded positive returns as credit spreads tightened. The outperformance was supported by a stable corporate earnings outlook and balanced technical factors.

Footnotes

1. These sub-funds have not been authorised by the Swiss Financial Market Supervisory Authority (FINMA) and have therefore not been approved for distribution in Switzerland.

2. These sub-funds with substantial Chinese exposure were closed from 30 April to 3 May 2024 due to China national holidays. During this period, these sub-funds were closed for dealing and any published non-official Net Asset Value were based on the final issued Net Asset Value prior to the closure. The Net Asset Values as at 30 April 2024 disclosed in the financial statements were fair valued.

3. These sub-funds have not been notified for marketing in Germany and the shares of these sub-funds may not be marketed to investors in Germany.

4. These sub-funds are not authorised by the Securities & Futures Commission in Hong Kong and may not be promoted or offered to the public in Hong Kong.

5. These sub-funds have not been authorised by the "Finanzmarktaufsicht" (Austrian Financial Market Authority) and have therefore not been approved for distribution in Austria.

6. These sub-funds are authorised by the Securities and Futures Commission in Hong Kong under the Securities and Futures Commission Code on Unit Trusts and Mutual Funds and not under the Securities and Futures Commission Code on Real Estate Investment Trusts. Such authorisation does not imply official recommendation.

7. This sub-fund can invest in Indian equity securities through a wholly-owned Mauritian subsidiary, FIL Investments (Mauritius) Limited. As at period end the Mauritian subsidiary only held cash.

8. These sub-funds are defined as Article 8 sub-funds as per Sustainable Finance Disclosure Regulation ("SFDR"). SFDR refers to the regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector. Article 8 sub-funds seek to achieve their investment objectives while promoting, among other characteristics, environmental or social characteristics, or a combination of those characteristics. Information on the environmental/social characteristics for the funds disclosing under Article 8 of SFDR, is made available in the annex to the unaudited section of the annual report.

9. These sub-funds are defined as Article 9 sub-funds as per SFDR. Article 9 sub-funds have sustainable investment as their objective. Information on sustainable investments for the funds disclosing under Article 9 of SFDR is made available in the annex to the unaudited section of the annual report.

Within the meaning of SFDR, the others sub-funds are defined as Article 6 and do not promote environmental and/or social characteristics nor have a sustainable investment as its objective as at period end.

Please note that not all countries of distribution have been disclosed in the above footnotes. For a complete list please refer to the prospectus.

1. General

The Company is an open-ended investment company and was incorporated in Luxembourg as a SICAV on 15 June 1990. The Company is a SICAV under part I of the Luxembourg Law of 17 December 2010, as amended, relating to undertakings for collective investment, which implements Directive 2014/91/EU ("UCITS V Directive").

FIMLUX is the Management Company of the Company, with the day-to-day responsibility for the administration, investment management and marketing/distribution functions of the Company.

As at 31 October 2024, the Company consisted of 131 active sub-funds. The Directors may from time to time close sub-funds as well as launch further sub-funds with different investment objectives, subject to the approval of the CSSF.

The following classes of Shares were launched during the Period:

Sub-fund name	Class of Shares	Date of launch

Investments in Indian securities within India Focus Fund are made partly via a wholly-owned Mauritian subsidiary, FIL Investments (Mauritius) Limited (the "Subsidiary"), previously called Fid Funds (Mauritius) Limited. The sole object of the Subsidiary is to carry out investment activities on behalf of the Company. FIL Investment Management (Singapore) Limited ("FIMSL") provides investment advisory and management services to the Subsidiary. FIMSL has obtained approval from the Securities and Exchange Board of India and the Reserve Bank of India to invest in India on its own behalf and on behalf of approved client accounts as a Foreign Portfolio Investor under Indian law. The Subsidiary is registered as a Foreign Portfolio Investor sub-account of FIMSL's licence and has been granted approval to invest in Indian securities. The assets and liabilities of the Subsidiary are consolidated in the Statement of Net Assets and all investments held by the Subsidiary are disclosed in the Schedule of Investments.

On 17 July 2024 a capital distribution was paid to investors of Emerging Europe, Middle East and Africa Fund side pockets classes of Shares ("SP"). Please refer to the Dividend Payments disclosed in note 9. For more details please refer to the announcement released on 10 July 2024 and available on https://www.fidelity.lu/funds/fund-updates.

On 30 July 2024, Sustainable Emerging Markets Ex China Fund was renamed Emerging Markets Ex China Fund, Sustainable Strategic Bond Fund was renamed Strategic Bond Fund, Sustainable Asian Bond Fund was renamed Sustainable Asia Pacific Bond Fund.

2. Significant Accounting Policies

The financial statements are prepared in accordance with the Luxembourg legal and regulatory requirements relating to undertakings for collective investment.

Calculation of the Net Asset Value. The Net Asset Value per share of each class of shares, is calculated by determining first the proportion of the net assets of the relevant sub-fund attributable to each class of shares. Each such amount will be divided by the number of shares of the relevant class outstanding as at close of business. The Net Asset Value of each class is determined in the principal dealing currency of the respective class.

Security Valuation. Investments in financial instruments traded on any stock exchange are valued at the last available price at the time when the valuation is carried out on the principal stock exchange on which such security is traded. Financial instruments dealt on any Over-the-Counter ("OTC") market, short-dated debt transferable securities and money market instruments not traded on a regulated exchange or market are valued at the last available price at the time when the valuation is carried out. For Cash Funds, Money Market Instruments are valued at Mark-to-Market or Mark-to-Model where the use of mark-to-market is not possible or the market data is not of sufficient quality. All other assets are valued with prudence and in good faith by the Directors of the Company on the basis of their reasonably foreseeable sales price. All holdings owned by the Company are quoted on a regulated market, except where otherwise distinguished in a sub-fund's Schedule of Investments.

Swing Pricing Policy. A swing pricing policy has been adopted and implemented to protect the interests of the Company's shareholders. The purpose of the price adjustment policy is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholder from the worst effects of dilution. It achieves this purpose by adjusting the share class price at which deals in a sub-fund are transacted. As such, share class prices may be adjusted up or down depending on the level and type of investor transactions on a particular day within a sub-fund. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Company will only trigger an adjustment in the price when there are significant net flows likely to have a material impact on the remaining Shareholders. The adjustment will be based on the normal dealing costs for the particular assets in which a sub-fund is invested but will not exceed 2% of the price. The Board may decide to increase this adjustment limit in exceptional circumstances to protect Shareholders' interests. Once an adjustment is made to a share class price, that price is the official price for that share class for all deals that day. As at 31 October 2024, price adjustments were made on the following sub-funds:

Sub-fund name	Class of Shares	Unswung NAV per Share	Swung NAV per Share
Absolute Return Global Equity Fund	A-ACC Shares (USD)	10.81	10.84

Fair Value Adjustments Policy. Fair value adjustments may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly if a sub-fund invests in markets that are closed for business at the time the sub-fund is valued, the Directors may, by derogation from the provisions above under security valuation, allow for the financial instruments included in a particular portfolio to be adjusted to reflect more accurately the fair value of the sub-fund's investments at the point of valuation.

Bank Deposits and Cash at Banks and Brokers. All bank deposits and cash at bank and brokers amounts are carried at face value.

Investment Security Transactions. Investment security transactions are accounted for on the date securities are purchased or sold. The computation of the cost of sales of securities is made on the basis of average cost.

Futures. Futures are accounted for on the date of opening or closing of the contract. Subsequent payments are made or received by the sub-fund each day, dependent on the daily fluctuations in the value of the underlying index or security which are recorded for financial reporting purposes as unrealised gains or losses by the sub-fund. The unrealised gains or losses resulting from futures are included in the Statement of Net Assets and in the Schedule of Investments. The realised gains and losses are based on the First In – First Out method.

Forward Foreign Exchange Contracts. Forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from forward foreign exchange contracts are included in the Statement of Net Assets and in the Schedule of Investments. All forwards, including those used for the hedging of share classes, are included in the Schedule of Investments.

Option Contracts. Options purchased are recorded as investments at their realisable market value; options written or sold are recorded as liabilities based on the cost to close the position. Purchased and written options are included in the Statement of Net Assets and in the Schedule of Investments. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

Interest Rate , Inflation , Overnight Index & Total Return Swaps. Interest receivable and payable on interest rate, inflation, overnight index and total return swap contracts is accrued on a daily basis, and future commitments under the swap are valued at market rates. Interest rate, inflation overnight interest and total return swap contracts are disclosed in the Statement of Net Assets and in the Schedule of Investments.

Credit Default Swaps. Premiums paid and received on credit default swap contracts to buy or sell protection against a credit event are accrued on a daily basis and reflected as net income. Future commitments under the swap are valued at market rates. Credit default swap contracts are disclosed in the Statement of Net Assets and in the Schedule of Investments.

Contracts for Difference. Contracts for difference are contracts entered into between a broker and the Company under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. When a contract is closed, the Company records a realised gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The valuation of contracts for difference is based on the underlying security and they are disclosed in the Statement of Net Assets and in the Schedule of Investments.

Equity Linked Notes. Equity Linked Notes are valued daily based on the price of the underlying security and are disclosed in the Statement of Net Assets and the Schedule of Investments at market value. The intermediate coupon(s) and final payment at maturity are determined by the change in value of the underlying security.

Foreign Exchange. The Directors determine the designated currency of each sub-fund. Assets and liabilities as at 31 October 2024 have been translated at the prevailing exchange rates on that date. All transactions denominated in foreign currencies during the period are translated into the subfund's designated currency at the exchange rate prevailing on the day of transaction.

Bonds in Escrow. Bonds included in the Schedule of Investments can be used as collateral against open derivative exposures. Where this is the case, bonds will be escrowed to prevent them from being traded. The following table discloses the bond's quantities in escrow per sub-funds:

Sub-fund name	Security description	Denominated quantity in escrow
Absolute Return Global Fixed Income Fund	US Treasury Bill 4.614% 12/12/2024	110,700

Fund share Transactions. The issue and redemption price per share of each sub-fund is the Net Asset Value per share on the date of trade, subject to the price adjustment policy.

Formation Costs. All formation costs related to the launch of the Company have been amortised. Costs incurred in launching new sub-funds will be charged to current operating expenses.

Income. Dividends on equities are recognised when the security is quoted ex-dividend. Interest is accounted for on an accruals basis.

Zero Coupon Disclosure. Zero coupon bonds and zero coupon money market instruments are disclosed in the Schedule of Investments at a rate reflecting the actual return.

Combined Accounts. The combined financial statements have been presented in USD which is the Company's designated currency and represent

the total financial statements of the different sub-funds. Sub-funds stated in currencies other than USD have been converted at exchange rates ruling at the period-end.

3. Co-Management of Assets

For the purpose of effective management, where the investment policies of the sub-funds so permit, the Board of Directors may choose to co-manage assets of certain sub-funds within the Fidelity Funds range. In such cases, assets of different sub-funds will be managed in common. Fractions may result from the co-management technique. The value of these fractions is based on the market value of the underlying financial instruments in the portfolio of the co-managed sub-funds at the end of the period and is included in the total market value of the portfolio. Considering the insignificance of these amounts, they have been included as "Fractions" in the Schedule of Investments.

4. Investment Management Fees and Other Transactions with the Investment Manager or its Affiliates

Pursuant to the Investment Management Agreement amended and restated on 9 July 2020, FIL Fund Management Limited ("FFML") is entitled to a monthly investment management fee and asset allocation fee, accrued daily and based on the average Total Net Assets of each sub-fund, at annual rates disclosed in the table below:

During the period ended 31 October 2024, the sub-funds invested in the following fund shares: Fidelity ILF - The Sterling Fund - A-ACC-GBP, Fidelity ILF - The US Dollar Fund - A-ACC-USD and Fidelity ILF - The Euro Fund - A-ACC-EUR, all of which have their management fees capped at 0.25% per annum.

Performance Fees

The Investment Manager is entitled to receive an annual performance fee, which is calculated in relation to the net assets of classes of Shares of funds that have cash indices as Market Indices, and which is subject to a high water mark adjusted for the return of the relevant Market Index. The use of a High Water Mark is appropriate in a performance fee methodology for a class of Shares of a fund that seeks to achieve an absolute return annually. The use of a High Water Mark seeks to ensure that investors will not be charged a performance fee until any previous losses are recovered. There is no mechanism to lower the High Water Mark.

The basis for calculation of performance fees is fully explained in the Prospectus that all investors should read before investing. The relevant performance fee rates, hurdle rates and comparative indices for each sub-fund are as follows:

Sub-fund name	Performance fee	Hurdle rate	Comparative Index
Absolute Return Global Equity Fund	15%	N/A	Secured Overnight Financing Rate
Absolute Return Multi Strategy Fund	10%	N/A	Secured Overnight Financing Rate

The following table discloses the accrued yet uncrystallised performance fees for each share class as at 31 October 2024:

Sub-fund name	Class of Shares	Class Currency	Performance Fees	% of AUM
Absolute Return Global Equity Fund	A-PF-ACC Shares (USD)	USD	16,889	0.03
Absolute Return Global Equity Fund	A-PF-ACC Shares (EUR) (EUR/USD hedged)	EUR	4,599	0.00
Absolute Return Global Equity Fund	W-PF-ACC Shares (GBP) (GBP/USD hedged)	GBP	113	0.02
Absolute Return Global Equity Fund	Y-PF-ACC Shares (USD)	USD	10,342	0.02
Absolute Return Global Equity Fund	Y-PF-ACC Shares (EUR) (EUR/USD hedged)	EUR	8,868	0.01

During the period under review, none of the Class of Shares of Absolute Return Multi Strategy Fund have accrued performance fees.

Others

Classes B and C Shares are subject to an annual distribution fee of up to 1.00% of the Net Asset Value of the relevant class. Class D shares are subject to an annual distribution fee of up to 0.50% of the Net Asset Value of the relevant class. Class E shares are subject to an annual distribution fee of up to 0.75% of the Net Asset Value of the relevant class. These fees are accrued daily and payable quarterly to FIL Distributors ("FID"). The Reserved Funds' classes of shares may only be acquired by investors who are either Undertakings for Collective Investment or investors whose assets are held in accounts managed by FIL Limited ("FIL") or its affiliates. Expenses and charges, excluding investment management fees, administration expenses, government taxes and custodian fees for such classes of shares, will be charged to, and paid directly by, FIL and its affiliates. The investment management fees, administration expenses, government taxes and custodian fees for such classes of shares are charged to the sub-funds but are reimbursed in full by FIL and its affiliates.

FIL and its affiliates may waive any or all of their fees and limit the maximum level of expenses (with certain exceptions) that the sub-funds would be paying. These waivers are voluntary, may be revised at any time. In addition, FFML may from time to time bear certain expenses of the subfunds, on a discretionary basis. Certain officers and directors of the Company are also directors, officers or employees of FIL or its affiliates.

5. Securities Lending

As at 31 October 2024, the Company lent securities having a value of USD 721,973,029 and received collateral with a market value of USD 764,261,509. During the period ended 31 October 2024, the Company paid USD 4,645,760 to the securities lending agents in relation to the securities lent. With respect to securities lending transactions, the Company will generally require the borrower to post collateral representing, at any time during the lifetime of the agreement, at least 105% of the total value of the securities lent. The following table discloses the breakdown of the total value of securities on loan, by sub-fund, as at 31 October 2024:

Sub-fund name	Currency	Maturity Tenor	Securities Values	% of Lendable Assets	% of AUM

HSBC	6,311,680	6,852,067	United Kingdom	Bilateral

The collateral which consists of government bonds is held by the securities lending agents and is not reflected in the financial statements. The collateral has not been reused. There are no restrictions on the reuse of collateral. As at 31 October 2024, the analysis of collateral received on securities lending was as follows:

Collateral Type	Total Value USD	Collateral Quality	Maturity Tenor of Collateral	Collateral Currency
Government Bond	100,183,236	A1	Above 1 Year	JPY
Government Bond	106,632,671	Aa2	Above 1 Year	EUR
Government Bond	81,768,144	Aa3	Above 1 Year	GBP
Government Bond	10,700,900	Aaa	Above 1 Year	CAD
Government Bond	53,319,253	Aaa	Above 1 Year	CHF
Government Bond	260,194,663	Aaa	Above 1 Year	EUR
Government Bond	610,002	Aaa	Above 1 Year	SEK
Government Bond	150,852,640	Aaa	Above 1 Year	USD

Brown Brothers Harriman (BBH) and Citibank act as agent lender for the Company for equity and fixed income lending, respectively. The allocation of income from the equity and fixed income lending as at 31 October 2024 is as follows:

Equity securities lending programme

The relevant sub-funds retain 90% of income and BBH retains 10%.

Fixed income securities lending programme

The relevant sub-funds retain 87.5% of income and Citibank retains 12.5%.

The analysis of income on securities lending for the period was as follows:

6. Taxation

The Company is not liable to any Luxembourg taxes on income or on realised or unrealised capital gains, nor to any Luxembourg withholding tax. The sub-funds are subject to an annual subscription tax of 0.05% on Equity, Equity Income, Asset Allocation, Multi Asset, Bond, Fidelity Lifestyle Funds and Institutional Reserved Funds Class Y Shares, 0.01% on Cash, Reserved, Class P, R, X and I Shares, and 0.00% on Index tracker Funds, calculated and payable quarterly on the Net Assets of the sub-fund on the last day of each calendar quarter.

Foreign capital gains, dividends and interest may be subject to capital gain and withholding taxes or other taxes imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders. Where there is a reasonable likelihood that a liability will crystallise, the tax payable on the unrealised gain is provided for in the NAV.

7. For UK residents only

The affairs of the Company have been conducted to ensure as far as possible that United Kingdom Reporting Fund Status will be granted for the period of these accounts with respect to the sub-funds and Share classes that are registered in the United Kingdom. With respect to UK registered sub-funds and Share classes in existence prior to the introduction of the new regime the Company has applied to the UK Inland Revenue to transition into the new regime and the UK authorities have given notice that they accept this entry. Moreover, the Company has submitted an application for the new regime for UK registered sub-funds and Share classes launched during the accounting year ending 30 April 2015. It also submitted or will submit an application for new Share classes in existing or new UK registered sub-funds launched during the accounting year. Reportable income figures are generally available six months after the year end date. The distributing subfunds and Share classes of the Company that were registered in the UK at the time have also been certified as "distributing funds" by the UK Inland Revenue authorities under the predecessor regime for all accounting year up to 30 April 2010.

8. Equalisation

Income equalisation arrangements are applied to all share classes (accumulating and distributing), across all sub-funds. For distributing shares, these arrangements are intended to ensure that the income per share which is distributed in respect of a distribution period is not affected by changes in the number of shares in issue during that period. The calculation of equalisation is based on net investment income.

9. Dividend Payments

The following dividend payments were made during the period ended 31 October 2024:

Sub-fund name	Div per Share	Ex-div date

Commitments are calculated in accordance with ESMA guidelines 10/788.

12. Counterparty Exposure of Total Return Swaps

As at 31 October 2024, the total exposure by executing broker to total return swaps, calculated as the aggregation of the unrealised gain on total return swaps and unrealised loss on total return swaps, was as follows:

Sub-fund name	Currency	Goldman Sachs	JP.Morgan	Merrill Lynch	Morgan Stanley
Absolute Return Global Fixed Income Fund	USD	34,923	68,350	(138)	(58,141)

13. Exposure of Contracts For Difference by Clearing Brokers

As at 31 October 2024, the total exposure by clearing broker to contracts for difference, calculated as the aggregation of the unrealised gain on contracts for difference and unrealised loss on contracts for difference, was as follows:

Sub-fund name	Currency	Goldman Sachs	HSBC	JP.Morgan	Morgan Stanley	UBS
Absolute Return Global Equity Fund	USD	3,511,530	1,821,148	2,613,205	2,723,291	366,036

14. Claims for Discriminatory Withholding Taxes within the European Union

Investment funds are generally subject to local withholding taxes on receipt of cross-border payments of dividends throughout Europe. However, European Court of Justice and European Free Trade Association Court decisions support a tax discrimination claim where EU or European Economic Area ("EEA") countries impose such withholding taxes on cross-border payments at rates higher than the withholding tax imposed on dividends paid in similar situations to resident investors.

The Board of the Company has therefore authorised the filing of protective claims, based on the EU principle of the freedom of movement of capital within the EU & EEA, against countries where it is believed that withholding taxes may have been unlawfully imposed by individual EU or EEA States on dividend payments to the Company. The Board's decision has been taken exclusively to protect the position of investors in the Company.

The nature of these claims is complex and subject to each jurisdiction's local statute of limitations and procedural requirements. Consequently, these claims may be subject to lengthy litigation, and at the current time there is no certainty whether all the protective claims will ultimately be successful and whether or how much withholding tax will ultimately be recovered in each of the jurisdictions. During the period ended 31 October 2024, no reclaims were received. The Withholding tax reclaims receivable are included in the Dividend and interest receivable in the Statements of Net Assets.

15. Statement of Changes in Investments

A list for each sub-fund, specifying for each investment the total purchases and sales which occurred during the period under review, may be obtained free of charge from the Registered Office of the Company or from any of the companies registered as Distributors of the Company. It is possible to receive information about the full holdings of the sub-funds in which you invest, at any point in time during the period. This is available upon request, by contacting your usual Fidelity Representative.

16. Rates of Exchange

The USD exchange rates as at 31 October 2024 are noted below. For the Chinese Renminbi currency, please note that the offshore rate is applied. RMB is a colloquial reference to the Chinese Renminbi, which is also know internationally as the Chinese Yuan ('CNY'). Whilst the CNY is traded both onshore in China and offshore (primarily in Hong Kong), it is the same currency although currently traded at different rates. The offshore rate for trading CNY is generally referred to as 'CNH'. The CNH rate will be used when determining the value of the Shares of a fund as well as for hedging purposes and should be read as the base currency of China RMB Bond Fund in the whole report.

Currency	Exchange rate	Currency	Exchange rate
Australian dollar (AUD)	1.524158	Norwegian krone (NOK)	11.0233

For Hong Kong residents only

Cross Trades

The Manager and/or the Investment Manager may enter into trades for the account of a Sub-Fund with: (i) the accounts of other clients managed by the Manager, the Investment Manager or its affiliates; or (ii) their house accounts (i.e., accounts owned by the Manager, the Investment Manager or any of its connected persons over which it can exercise control and influence) ("cross-trades"). Such cross-trades will only be undertaken in accordance with the relevant requirements promulgated by the relevant authorities. For the period ended 31 October 2024, The Company did not enter into any cross trade.

Other Information

Over the period, the primary A-EUR class of the Euro 50 Index Fund returned -0.54% in net euro terms, while the Solactive Euro 50 NTR Index returned -0.65%.
