Important Information

- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with net income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
