Number of holdings	17963
Launch date	10/07/2018

Fund Charges

Annual Management Charge (AMC)	1.08%
Further Costs	0.13%
Yearly Total	1.21%

Aims

Objective: The investment strategy of the fund is to buy units in the WS Prudential Risk Managed Passive 5 Fund - the underlying fund.

Underlying Fund Objective: The fund aims to achieve long-term (in excess of 5 years) total return (the combination of income and growth of capital) by investing in a mix of assets from around the world and aims to limit the average volatility per annum over rolling 5 year periods to 17%. There is no guarantee the objective will be achieved over any time period and the actual volatility, at any time, may be higher or lower than 17%. Capital invested is at risk.

Performance

Discrete performance - to last month end

Fund Managers

Name: Philip Butler
Manager of the underlying fund for: 7 years, 5 months

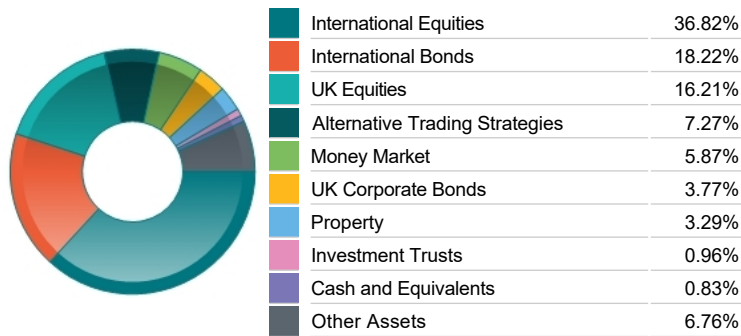

Important Information

- Because of changes in exchange rates the value of your investment, as well as any money you take from it, can go down as well as up.
- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with net income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
