Annual Management Charge (AMC)	1.70%
Further Costs	0.00%
Yearly Total	1.70%

Aims

Objective: The investment strategy of the fund is to purchase units in the Aegon Ethical Equity Fund - the underlying fund.

Underlying Fund Objective: The fund aims to maximise total return by investment in equities and equity type securities in companies based in the UK, principally conducting business in the UK or listed on the UK stock market which meet the fund's predefined ethical criteria. The underlying Aegon fund will invest at least 80% in equities of companies which are listed, quoted or traded in UK markets or which have their headquarters or a significant part of their activities in the UK but which may also be quoted on a regulated market outside of the UK. The underlying Kames fund operates an ethical screen which means it may not invest in particular industries and sectors. In all cases, the investments of the underlying fund will meet its predefined ethical criteria.

Important Information

- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with gross income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
