Aims

The investment strategy of the fund is to purchase units in the CF Prudential Dynamic 0-30 Portfolio. That portfolio aims to achieve long-term total return (the combination of income and growth of capital). It is an actively managed portfolio investing mainly in collective investment schemes in order to provide a well diversified exposure to global fixed income and variable rate assets, cash, deposits, warrants, money market instruments, equities and/or immovable property. Typically the portfolio will have a high exposure to lower risk assets such as fixed income assets, cash, deposits, warrants and money market instruments with no more than 30% of the portfolio being invested in schemes whose predominant exposure is to equities.
