Fund Charges

| | |
|--------------------------------|-------|
| Annual Management Charge (AMC) | 1.55% |
| Further Costs | 0.14% |
| Yearly Total | 1.69% |

Aims

Objective: The investment strategy of the fund is to purchase units in the Wellington Global Impact Bond Fund - the underlying fund.

Underlying Fund Objective: The fund seeks long-term total returns (capital appreciation and income). The fund has a sustainable objective to seek to understand the world's social and environmental problems and to invest in companies and organisations that it believes are addressing these needs in a differentiated way through their core products, services and projects. The fund through its investments, seeks to improve access to, and the quality of, basic life essentials, reduce inequality and mitigate the effects of climate change. The fund will be actively managed and seeks to deliver long-term total returns in excess of the Bloomberg Barclays Global Aggregate Index (USD Hedged) ("the Index") and achieve its objectives by investing primarily in investment-grade global fixed income securities.

Important Information

- Because of changes in exchange rates the value of your investment, as well as any money you take from it, can go down as well as up.
- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with net income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
