USING THIS FUND FACTSHEET

When you invest in a pension, your money buys units in one or more funds. These funds pool together money from other investors and a fund manager uses this money to invest in a number of different investments. This **Fund Factsheet** gives you detailed information about a particular fund to help you decide if it's right for you. It's important that you read this together with **Investor's Guide, Portfolio Plus SIPP (ESF/BPWM) Key Features, Terms Sheet, Selected Funds Guide for Insured Funds** and **Illustration(s)** before investing in the pension.

FUND MANAGEMENT COMPANY

SCHRODER UNIT TRUSTS LIMITED

This is basic background information about the company whose fund manager selects the investments that make up the fund.

 **Schroders** Schroders manage assets on behalf of large corporate, local authority, central government and charitable entities as well as on behalf of individuals, via mutual funds and investment trusts. Their core skills in devising, producing and delivering products for clients across the full range of asset management activities allow them to meet the needs of this broad spectrum of clients. Schroders is a dynamic organisation that prides itself on its innovation and specialisation. Their goals are completely aligned to those of their clients' - the creation of long-term value.

FUND MANAGER

The fund manager is professionally qualified to manage funds. It's their job to seek out the best investment opportunities, based on the fund's aim. They often have access to a team of experts to help them decide where to invest.

Andrew Rose
Manager since
01/04/2004

FUND AIM

This is a general description of what the fund aims to achieve, as stated by the fund management company. For a detailed description of what the fund invests in, please see the fund characteristics on page 2.

To achieve capital appreciation through participation in the growth of the Japanese economy. Investment will be based primarily on Japan's economic strengths, such as its manufacturing industry (in particular on those parts of it that are demonstrating an ability to exploit newly emerging technology) and on sectors benefiting from structural change in the economy. Investment will be in directly held transferable securities. The fund may also invest in collective investment schemes, warrants and money market instruments.

ABI SECTOR

ABI UK - JAPAN EQUITIES-PEN

This is the ABI sector the fund falls into. ABI sectors are defined by the Association of British Insurers (ABI). The sectors are a way of grouping funds with similar characteristics, so they're easier to compare.

- Funds which invest at least 80% of their assets in equities quoted on the Japanese stock market.

FUND CHARACTERISTICS

This fund is overseen by an experienced fund manager who makes informed decisions on where to invest your money. The fund manager constantly monitors companies, economic conditions and markets to select and change a portfolio of investments that offers the best opportunities to meet the fund's aim.

The fund generally invests in the following:

Equities. To provide the potential for overall returns the fund invests in equities, also known as company shares. This is achieved by receiving a share of companies' profits as dividends, and benefiting from increases in share prices. Equities generally have a higher potential for returns than other investments, which also means a higher risk of loss especially in the short term. It's worth noting that if the shares in the companies chosen perform worse than expected or a major event impacts the shares, the returns on your investment could fall.

Some specific characteristics of the assets held in this fund include:

Smaller companies. The fund invests in smaller companies. Investments in smaller companies tend to be riskier than investments in larger companies because they can:

- be harder to buy and sell; or
- go up and down in value more often and by larger amounts, especially in the short term.

These risks may increase with market uncertainty and it could become even less easy for the fund to buy and sell investments. If this happens, the value of the fund may fall and in extreme circumstances this may also force a delay in buying and selling investments in the fund. The fund can only delay paying out if it is in the interests of all investors and with the permission of the fund trustee or depositary.

Overseas. The fund includes investments outside the UK to try to benefit from the greater range of investment opportunities other countries offer. The potentially high rewards of investing overseas are balanced by risks and therefore the returns on your investment could rise and fall more than if it only invested in the UK. This is because some of the investments are held in currencies other than the Pound and their value will change in line with exchange rates. If the Pound strengthens against another currency, the value of the investments held in that currency is likely to fall. However, if the Pound weakens against that currency, their value is likely to rise.

FUND PERFORMANCE AS AT 30 JUNE 2017

The graph opposite shows how the fund has performed over the last five years (or since the fund launched) compared with the fund's ABI sector average. The first table shows the total percentage change, over one, three and five years. The second table shows performance for 12-month periods over the last five years, to the end of the last quarter.

NOTES: Please bear in mind that past performance is not a guide to future returns. The value of your investment and any income taken from it is not guaranteed and may go up and down. You could get back less than you invest.

The performance provided for the fund is:

- Is after all fund charges have been taken, and
- assumes all income generated by the investments remains in the fund.

Also:

- The sector values are based on the selling price of units published by all the funds in that ABI sector.
- The values do not take account of any product charges. You can find more information about our charges in the Members' Policy Booklet.

	1 year	3 years	5 years
Fund	25.48	57.88	93.47

GLOSSARY

Explanations of some of the words used in this Fund Factsheet.

Additional Expenses	This is the charge that covers various fees and expenses that fund managers may have to pay, such as auditors, trustees, custodian, registrar and regulator fees.
Cash and equivalents	Some funds keep part of your money in cash to add flexibility and aid stability. This includes bank deposits and other investments that can be easily converted into cash.
Fund characteristics	Specific characteristics unique to the type of investments this fund may hold, which may affect your investment return.
Fund Management Charge	This is the charge that covers the costs of managing the fund and is taken out as a percentage of the fund's value.
Fund size	The total value of all investments held in all Legal & General pension versions of the fund.
Launch date	The date the first Legal & General pension version of the fund opened for new business.
Legal & General fund code	Each fund has a unique four digit reference code. You'll need to use this code on your application form when you tell us where you would like to invest.
Lipper	A Thomson Reuters company that supplies fund information, analytical tools, and commentary. We use Lipper to provide past performance data on our fund factsheets.
Overall fund size	The total value of all investments held in the underlying fund.
Performance fee	A performance fee is charged to a fund if it performs better than a pre-agreed target. If it applies, your adviser can give you more information or further details are available on request.

WHAT TO DO NEXT

If you would like to invest in this fund, or have any questions, please speak to your adviser. Remember you must read the **Investor's Guide, Portfolio Plus SIPP (ESF/BPWM) Key Features, Terms Sheet, Selected Funds Guide for Insured Funds** and **Illustration(s)** before investing in the pension.
