USING THIS FUND FACTSHEET

When you invest in a pension, your money buys units in one or more funds. These funds pool together money from other investors and a fund manager uses this money to invest in a number of different investments. This **Fund Factsheet** gives you detailed information about a particular fund to help you decide if it's right for you. It's important that you read this together with **Investor's Guide, Portfolio Plus SIPP (ESF/BPWM) Key Features, Terms Sheet, Selected Funds Guide for Insured Funds** and **Illustration(s)** before investing in the pension.

FUND MANAGEMENT COMPANY

KAMES CAPITAL

This is basic background information about the company whose fund manager selects the investments that make up the fund.

From their base in Edinburgh, KamesCapital work closely with colleagues in the US and Netherlands to offer global reach supported by local know-how. They manage assets on of UK and international clients - including wealth managers, financial institutions, pension funds, charities and financial advisers.

FUND MANAGER

AUDREY RYAN

The fund manager is professionally qualified to manage funds. It's their job to seek out the best investment opportunities, based on the fund's aim. They often have access to a team of experts to help them decide where to invest.

Audrey Ryan is an investment manager in the UK Equities team with responsibility for managing several funds, including the Kames Ethical Equity Fund and Kames UK Opportunities Fund. In addition, Audrey has analysis duties for the travel & leisure sector, and is a small-cap specialist. She joined us in 1997 from General Accident where she was a UK small companies portfolio manager. Audrey studied Accounting at Napier University, is a qualified chartered accountant and has an MSc in Investment Analysis.

FUND AIM

This is a general description of what the fund aims to achieve, as stated by the fund management company. For a detailed description of what the fund invests in, please see the fund characteristics on page 2.

To maximise total return by investment in equities and equity type securities in companies based in the UK, principally conducting business in the UK or listed in the UK stock market which meets the funds predefined ethical criteria.

ABI SECTOR

ABI UK - UK ALL COMPANIES-PEN

This is the ABI sector the fund falls into. ABI sectors are defined by the Association of British Insurers (ABI). The sectors are a way of grouping funds with similar characteristics, so they're easier to compare.

- Funds which invest at least 80% of their assets in equities quoted on the UK stock market.
- Funds have the primary objective of achieving capital growth or total return.

FUND CHARACTERISTICS

This fund is overseen by an experienced fund manager who makes informed decisions on where to invest your money. The fund manager constantly monitors companies, economic conditions and markets to select and change a portfolio of investments that offers the best opportunities to meet the fund's aim.

The fund generally invests in the following:

Equities. To provide the potential for overall returns the fund invests in equities, also known as company shares. This is achieved by receiving a share of companies' profits as dividends, and benefiting from increases in share prices. Equities generally have a higher potential for returns than other investments, which also means a higher risk of loss especially in the short term. It's worth noting that if the shares in the companies chosen perform worse than expected or a major event impacts the shares, the returns on your investment could fall.

Some specific characteristics of the assets held in this fund include:

Smaller companies. The fund invests in smaller companies. Investments in smaller companies tend to be riskier than investments in larger companies because they can:

- be harder to buy and sell; or
- go up and down in value more often and by larger amounts, especially in the short term.

These risks may increase with market uncertainty and it could become even less easy for the fund to buy and sell investments. If this happens, the value of the fund may fall and in extreme circumstances this may also force a delay in buying and selling investments in the fund. The fund can only delay paying out if it is in the interests of all investors and with the permission of the fund trustee or depositary.

Ethical holdings. The fund invests in companies that keep to social, religious and environmental guidelines, letting you invest with a clear conscience and support socially responsible companies. The fund filters companies involved in practices such as intensive farming, gambling, adult entertainment, weapon manufacturing and selling tobacco. As ethical investing limits investment in certain companies or sectors it can cause more movement to your investment returns, particularly in the short-term.

FUND PERFORMANCE AS AT 30 JUNE 2017

The graph opposite shows how the fund has performed over the last five years (or since the fund launched) compared with the fund's ABI sector average. The first table shows the total percentage change, over one, three and five years. The second table shows performance for 12-month periods over the last five years, to the end of the last quarter.

NOTES: Please bear in mind that past performance is not a guide to future returns. The value of your investment and any income taken from it is not guaranteed and may go up and down. You could get back less than you invest.

The performance provided for the fund is:

- Is after all fund charges have been taken, and
- assumes all income generated by the investments remains in the fund.

Also:

- The sector values are based on the selling price of units published by all the funds in that ABI sector.
- The values do not take account of any product charges. You can find more information about our charges in the Members' Policy Booklet.
