

# CF Canlife Asia Pacific Fund

## Fund objective

The fund aims to provide capital growth mainly from investment in shares quoted on Asia-Pacific markets, excluding Japan.

## Fund characteristics

The manager's active, high-conviction approach draws upon her extensive knowledge of Asian markets. Her deep understanding of the region allows her to uncover opportunities other investors may miss. As the prospects for each country differ widely, her process begins with top-down country selection. Once this is in place, she then thinks about which companies are best placed to deliver growth.
