

Japanese Smaller Companies Fund

30th June 2014

Fund Aims

To achieve capital growth by investing, whether directly or indirectly, in Japan, with particular emphasis on smaller companies, in any economic sector. The Fund's share price can be volatile due to movements in the prices of the underlying holdings and the basis on which the Fund is priced.

Investment Proposition

We invest in attractively valued smaller companies that we believe offer good growth opportunities.

Growth may come from innovative business models, disrupting traditional Japanese business practises, or market opportunities such as growth by Japanese companies outside Japan.
