

# CF 7IM ADVENTUROUS FUND

## INVESTMENT OBJECTIVE & PROCESS

This Fund aims to provide capital growth. There is a risk of wide fluctuations in capital values.

We try to maximise the potential investment returns for a portfolio that is compatible with the level of risk the investor is comfortable with. We do this in two ways:

- **Robust strategic asset allocation.** We create efficient portfolios that combine different investment types with varying risk/return properties.
- **Sensible tactical asset allocation.** Short term changes to reflect our current view of the markets and economic outlook.

The strategic asset allocation has been defined by the investment manager as the optimum combination of investments likely to maximise long term returns for a given level of risk consistent with an adventurous investor. Once this is determined, we make shorter term tactical allocations. The tactical tilt is made up of a series of investments the portfolio manager takes, designed to take advantage of near term market conditions and trends.

The strategic asset allocation is reviewed annually by the investment manager to ensure its validity. The positioning of the tactical tilt is reviewed quarterly and is subject to continual monitoring against the latest market information.

## TACTICAL ASSET ALLOCATION

The Fund's weighting against the portfolio manager's long term strategy neutral for a given level risk is shown below. The strategy neutral is the portfolio manager's assessment of the portfolio that will give an adventurous investor the optimal balance of risk and return based upon long term returns data.

Source: 7IM - N.B. The strategic neutral position is not displayed as it remains the intellectual property of Ibbotson Associates, Inc.

## FUND AVAILABILITY & RISK MAPPING

The 7IM Funds are available via the majority of the major wraps, platforms and life & pension wrappers. Additionally, we have mapped our funds to a range of the most frequently used risk profiling tools. If you would like further information relating to either of these areas, please call us on 0207 760 8777.
