

Investment Objective

The Unicorn UK Smaller Companies Fund aims to achieve long-term capital growth by investing primarily in UK companies included within the Numis Smaller Companies plus AIM Index. For this purpose, UK companies are defined as those which are incorporated or domiciled in the UK, or have a significant part of their operations in the UK. The Index covers the bottom tenth by value of the main UK equity market plus AIM stocks that meet the same size limit.

Investment Policy/Strategy

The investment approach is to identify individual companies for investment and therefore the portfolio may not be representative of the index. AIM is the London Stock Exchange's International Market for smaller growing companies. The fund may also invest, at its discretion, in other transferable securities and deposits and cash. The fund may also enter into certain derivative and forward transactions for hedging purposes. The fund invests for the long term and there is no guarantee that any particular return will be achieved over any period. Investors should note that their capital is always at risk.

Fund Commentary

The UK Smaller Companies Fund registered a total return of +3.2% in February, compared to the IA UK Smaller Companies sector average total return of +0.7% over the same period. The principal contributor was Dairy Crest, which added 0.8% to overall Fund performance. Dairy Crest is the UK's leading cheese manufacturer, which announced on 22 February that it had agreed the terms of a takeover offer for the company, at a premium of 11.7% to the previous day's close price. The next largest contributor was Goodwin, which added 0.7% to Fund performance, despite an absence of significant newsflow. Another notable contributor was Codemasters, a developer of car racing video games, which added 0.6% to Fund performance.

There were no material detractors from performance during the period under review.

No new positions were added, nor were any positions exited during February.

Unicorn Asset Management Limited (Unicorn) is an independent, specialist fund management group, established in July 2000.

Unicorn focuses on long term, long only, investment in UK quoted companies and aims to achieve superior absolute returns through the application of traditional, fundamental principles of investment.

The value of investments and the income from them may go down as well as up and investors may not get back the full amount of their original investment. You should not invest unless you are prepared to accept a high degree of risk. Taxation levels, benefits and reliefs may all vary depending on individual circumstances and are subject to change. Investing in smaller companies, including AIM companies, can carry greater risks than those usually associated with large capitalisation companies. Smaller companies are likely to be less established and may not have access to the financial resources available to their larger counterparts. The shares of smaller companies are relatively illiquid and under-researched.
