

# International Fund

30<sup>th</sup> June 2014

## Fund Aims

To achieve capital growth by investing principally in companies worldwide, excluding the United Kingdom. The Fund's share price can be volatile due to movements in the prices of the underlying holdings and the basis on which the Fund is priced.

## Investment Proposition

The Fund invests in an actively managed portfolio of stocks from around the world (excluding the UK) with the aim of delivering significantly higher total returns than the corresponding index before fees.

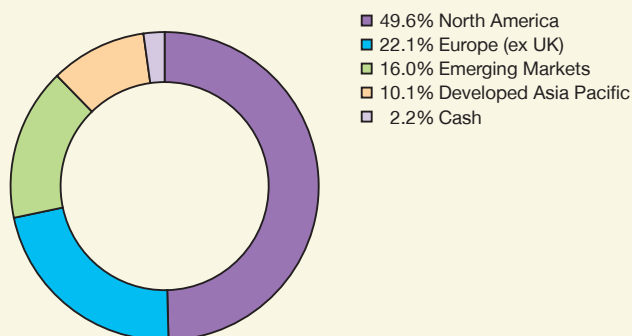

We focus on companies which we believe offer above average profit growth and we invest with a long-term (5 year) perspective.

The Fund's three dedicated investment managers draw on a combination of their own investment ideas and those of our various investment teams to produce a portfolio that typically holds 60–110 stocks.
