30<sup>th</sup> June 2014

## Fund Aims

To achieve capital growth by investment in the Far East, Australasia and the Indian sub-continent in any economic sector. The current policy excludes investment in Japan, New Zealand and Australia. The Fund's share price can be volatile due to movements in the prices of the underlying holdings and the basis on which the Fund is priced.

## Investment Proposition

The Fund is positioned as a long-term Asian growth fund.

Our aim is to identify quality companies that will outperform over a 5 year (or longer) time horizon. We have a strong preference for growth.

The Fund is relatively index and sector agnostic, as we primarily focus on finding the best long-term Asian investments irrespective of their country or sector.

The Fund benefits from Baillie Gifford's substantial global investment resources, helping to produce a portfolio that typically holds 50–80 stocks with low turnover.
