

Launch date:

June 2006

Date of continuation vote:

May 2014

Jupiter Green Investment Trust PLC

January 2014

Objective

To generate long-term capital growth through a diverse portfolio of companies providing environmental solutions. The Company invests globally in companies which have a significant focus on environmental solutions. Specifically, the Company looks to invest across three key areas: infrastructure, resource efficiency and demographics.

Fund Manager

Charlie Thomas

Charlie Thomas joined the Jupiter Sustainable Investment and Governance Team in 2000 and, since September 2003, he has been the lead Fund Manager of both the Jupiter Global Green which rolled over into the Jupiter Green Investment Trust. Charlie is also responsible for the management of a number of segregated mandates for Jupiter's institutional clients.

Prior to joining Jupiter, Charlie spent three years working for BP, firstly as an environmental policy advisor where he was instrumental in developing climate change strategies and policies for the group and he later worked on new business development as a commercial analyst.

Charlie has also worked for the United Nations Environment Programme as well as other financial institutions. Charlie has an MSc in Environmental Technology from Imperial College, London.

Charlie is supported by a team of environmental analysts who together will ensure that each investment falls within at least one of the green investment themes.

Risk Factors

Risks applicable to all investment companies

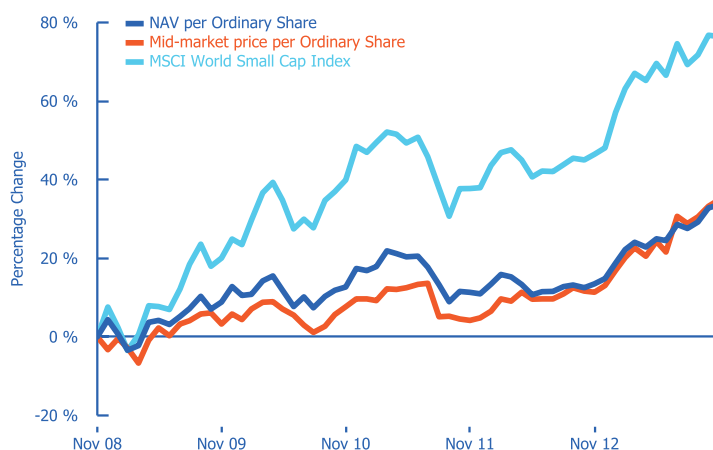

- The various classes of securities issued by the Jupiter investment companies have varying levels of risk. You are recommended to seek financial advice or otherwise satisfy yourself that the risks associated with your chosen investment are acceptable before investing.
- The investments in an investment company's portfolio are subject to stock market fluctuations and other risks inherent in all investments.
- There can be no assurance that the value of your investment will increase.
- The value of investments and the income from them may go down as well as up and an investor may not be able to realise the full amount of the original investment.
- Past performance should not be seen as a guide to future performance.
- Changes in exchange rates between currencies may also cause the value of the investment to increase or diminish.
- The recent dividend history is given for illustrative purposes only and future dividends are not guaranteed.
- Current tax levels and reliefs will depend on your individual circumstances.

This document contains information based on the MSCI World Small Cap Index. The MSCI World Small-Cap Index is a free float-adjusted market capitalization Index that is designed to measure small-cap equity performance in the global developed markets. The Index targets 40% of the eligible small-cap universe as all listed securities with a market capitalization in the range of USD200-1,500 million. Prior to November 1, 2006, performance data for the MSCI Index was calculated gross of dividend tax withholding. Performance data presently shown for the Index is net of dividend tax withholding. This recalculation results in lower performance for the Index. It is not possible to invest directly in an Index.

Details of charges and their affect on returns are contained in the most recent published Report and Accounts and in the Savings Scheme/ISA Key Features Document. Current tax levels and reliefs will depend on individual circumstances and further details can also be obtained from the most recent published Report and Accounts and in the Savings Scheme/ISA Key Features Document. For your security we may record or randomly monitor all telephone calls. If you are unsure of the suitability of an investment please contact an authorised Financial Adviser.
