Monthly Update as at 30 June 2015

## Management Commentary

In June, the Bank of England (BoE) voted unanimously to keep interest rates on hold at the 0.5% and its asset purchases unchanged at GBP 375 billion. The final estimate for first-quarter GDP was revised up to 0.4% quarter on quarter, in line with expectations, and annual growth was revised up to 2.9%. Consumer prices returned to positive territory at 0.1% year on year (y/y) and there was further growth in the UK jobs market.

The trust continues to retain its broad diversification across six of the UK's leading AAA-rated sterling liquidity funds, each selected to provide a high level of capital security for shareholders.

The BoE is expected to keep monetary policy unchanged at its next meeting. The Office for Budget Responsibility revised down its UK economic growth forecast for 2015 from 2.5% to 2.4%. Growth forecasts for 2016 remained flat.

## SECTOR BREAKDOWN AS AT 30 JUNE 2015

The Trust is an actively managed portfolio, holdings, sector weights, allocations and leverage, as applicable are subject to change at the discretion of the Investment Manager without notice.

## RISK INFORMATION

- External factors may cause an entire asset class to decline in value. Prices and values of all shares or all bonds could decline at the same time.
- The Company may borrow to finance further investment (gearing). The use of gearing is likely to lead to volatility in the Net Asset Value (NAV) meaning that a relatively small movement, down or up, in the value of the Company's assets will result in a magnified movement, in the same direction, of that NAV.
