Equities gained over the period, with the Eurozone bolstered by European Central Bank President Mario Draghi's pledge to do 'whatever it takes' to preserve the Euro. Encouraging US macroeconomic data and a continuation of ultra accommodative monetary policy from central banks supported risk appetite. Bond yields rose towards the end of the period after the Federal Reserve indicated that it could taper its quantitative easing programme if economic data showed continued improvement.

Five years from the anniversary of the 2008 financial crisis, we may finally have seen the worst of the economic turbulence and be coming out the other side. For the first time, we see signs of a global synchronised economic recovery, albeit stronger in some countries and tentative in others, but nonetheless an improvement in growth across the world's most significant economies. As a result, developed market equities have been one of the best performing asset classes over the period.

These gains have been supported by a perceived reduction in event risk as the crises of prior years seem to have been controlled or are at least better understood. While debt levels remain high, the world seems to be past the worst effects of austerity. The liquidity environment also remains benign and central banks have made it clear that they will not tighten liquidity or raise interest rates until recoveries are more firmly entrenched: probably not until late 2015.

The emerging economies, by contrast, have seen growth rates slow, leading to funding issues and current accounts imbalances, causing their currencies to decline.

Fixed income has also had a difficult time. As growth in the developed world has improved, and with concerns about less quantitative easing in the US, the yields on longer-dated sovereign bonds have been volatile and produced the first negative return for bond investors since the bond market collapse of 1994.

## Activity

During the period we sold the holdings of Gold Bullion and Blackrock Gold and General as the outlook for gold deteriorated. The proceeds were used to increase our equity exposure where we initiated holdings in Cazenove UK Opportunities and Miton UK Smaller Companies.

Following a string of poor data out of China we reduced the fund's exposure to Asia and Emerging markets and on weaker days tactically used the cash to add to core positions in Japan, Europe, US and UK.

## **Investment Adviser's Report (continued)**

In addition to the above we also sold the holdings of Schroder UK Alpha and SWIP UK Flexible following fund manager departures, with new investments being made into Old Mutual UK Alpha and Cazenove UK Target Return respectively.

### **Outlook**

The improvements we have seen this year are not ground-breaking but they are significant. We have completed a liquidity rally and a valuation rally but we must now return to a world where earnings matter. We need to see solid macroeconomic improvements translate into better corporate earnings and profitability. Improvements in earnings guidance in Q3 and Q4 could be the catalyst for further – and more fundamental – market gains.

The investments have been valued in accordance with note 1(b) and are authorised Collective Investment Schemes.

\* - Investments are not authorised Collective Investment Schemes.

## **Statement of ACD's Responsibilities**

The ACD is responsible for preparing the financial statements in accordance with applicable law and United Kingdom Generally Accepted Accounting Practice.

The Financial Conduct Authority's Collective Investment Schemes Sourcebook ("COLL") requires the Authorised Corporate Director to ensure that the financial statements for each accounting period give a true and fair view of the financial affairs of the Scheme and of the net income / expenses and of the net gains / losses on the property of the Scheme for that year.

In preparing the financial statements the ACD is required to:

- select suitable accounting policies, as described in the attached financial statements, and apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- comply with the Prospectus, generally accepted accounting principles and applicable accounting standards subject to any material departures which are required to be disclosed and explained in the financial statements;
- comply with the disclosure requirements of the Statement of Recommended Practice for Financial Statements and Authorised Funds;
- keep proper accounting records which enable it to demonstrate that the accounts as prepared comply with the above requirements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Scheme will continue in operation.

The ACD is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Scheme and to enable them to ensure that the financial statements comply with the COLL Sourcebook. The ACD is also responsible for safeguarding the assets of the Scheme and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the ACD is aware:

- There is no relevant audit information of which the Scheme's auditors are unaware and
- The ACD has taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

## **Statement of Depositary's Responsibilities**

The Depositary is responsible for the safekeeping of all of the property of the company (other than tangible moveable property) which is entrusted to it and for the collection of income that arises from that property.

It is the duty of the Depositary to take reasonable care to ensure that the company is managed in accordance with the Financial Conduct Authority's COLL Sourcebook, the Open-Ended Investment Companies Regulations 2001 (SI 2001 / 1228) (the OEIC Regulations) and the company's Instrument of Incorporation, in relating to the pricing of and dealing in, shares in the company, the application of income of the company, and the investment and borrowing power of the company.

## **Report of the Depositary**

In our opinion during the period under review, we confirm that in all material respects the company has carried out the issue, sale, redemption, cancellation and calculation of the price of the company's shares and the application of the company's income in accordance with the rules in the COLL sourcebook and, where applicable, the OEIC regulations and the Instrument of Incorporation of the company, and has observed the investment and borrowing powers and restrictions applicable to the company.

## **Independent auditors' report to the shareholders of MGTS Future Money Dynamic Growth fund**

We have audited the financial statements of MGTS Future Money Dynamic Growth fund for the year ended 31 July 2013, which comprise the statement of total return, the balance sheet, the statement of change in net assets attributable to shareholders, together with the related notes and the distribution table. The financial reporting framework that has been applied in their preparations is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Fund's shareholders as a body, in accordance with Rule 4.5.12 of the Collective Investment Scheme Sourcebook as required by paragraph 67(2) of the Open-Ended Investment Companies Regulations 2001. Our audit work has been undertaken so that we might state to the Fund's shareholders those matters we are required to state to them in an Auditor's Report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Fund and the Fund's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of the ACD and auditors**

As explained more fully in the ACD's Responsibilities Statement set out on page 6, the ACD is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the fund's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements.

In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

### **Opinion on financial statements**

In our opinion the financial statements:

- give a true and fair view of the state of the Fund's affairs as at 31 July 2013 and of the net income and the net gains on the property of the Fund for the year then ended; and
- have been properly prepared in accordance with the Prospectus, the Statement of Recommended Practice relating to Authorised Funds; the rules of the Collective Investment Schemes Sourcebook issued by the Financial Conduct Authority and United Kingdom Generally Accepted Accounting Practice.

### **Opinion on other matters prescribed by the collective investment scheme sourcebook**

- The information given in the ACD's report for the financial period for which the financial statements are prepared is consistent with the financial statements; and
- we have received all the information and explanations we require for our audit.

## **Independent auditors' report to the shareholders of MGTS Future Money Dynamic Growth fund (continued)**

### **Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters, where we are required to report, if in our opinion:

- adequate accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records and returns.

### Risk Warning

An investment in an open-ended investment company (OEIC) should be regarded as a medium to long term investment. Investors should be aware that the price of shares and the income from them can fall as well as rise and investors may not receive back the full amount invested. Past performance is not a guide to future performance. Investments denominated in currencies other than the base currency are subject to fluctuations in exchange rates, which can be favourable or unfavourable.

# Notes to the financial statements

As at 31 July 2013

## 1 Accounting policies

### a) Basis of accounting

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments, and in accordance with the revised Statement of Recommended Practice (SORP) for Authorised Funds issued by the Investment Management Association in October 2010. No changes to the Net Asset Value of the fund have arisen from the adoption of the SORP.

### b) Basis of valuation of investments

The investments are valued at quoted bid prices for dual priced funds and at quoted prices for single priced funds, on the last business day of the accounting period.

### c) Foreign exchange rates

Transactions in foreign currencies are recorded in sterling at the rate ruling at the date of the transactions. Assets and liabilities expressed in foreign currencies at the end of the accounting period are translated into sterling at the closing middle exchange rates ruling on that date.

### d) Revenue

All income allocations and distributions declared by the managers of the underlying funds up to the accounting date are included in Income, net of attributable tax credits. The net allocations which are retained in Income are included in the fund's own income allocation. Bank and other interest receivable is accrued up to the accounting date. Equalisation on distributions received is deducted from the cost of the investment and not included in the fund's income available for distribution.

### e) Expenses

The ACD's periodic charge is deducted from Income. All of the other expenses are charged against Income except for costs associated with the purchase and sale of investments which are charged against Capital.

### f) Taxation

- (i) The fund is treated as a corporate shareholder with respect to its underlying holdings and its income is subject to streaming into franked and unfranked.
- (ii) Corporation tax is provided at 20% on income, other than the franked portion of distributions from collective investment schemes, after deduction of expenses.
- (iii) The charge for deferred tax is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is provided using the liability method on all timing differences, calculated at the rate at which it is anticipated the timing differences will reverse. Deferred tax assets are recognised only when, on the basis of available evidence, it is more likely than not that there will be taxable profits in the future against which the deferred tax asset can be offset.
- (iv) Stamp duty reserve tax suffered on surrender of shares is deducted from capital.

## 2 Distribution policy

Income arising from investments accumulates during each accounting period. Surplus income is allocated to shareholders in accordance with the COLL regulations. In order to conduct a controlled dividend flow to shareholders, interim distributions will be made at the ACD's discretion, up to a maximum of the distributable income available for the period. All remaining income is distributed in accordance with the COLL regulations.

### 3 Risk management policies

In pursuing the investment objective, a number of financial instruments are held which may comprise securities and other investments, cash balances and debtors and creditors, that arise directly from operations. Derivatives, such as futures or forward foreign exchange contracts, may be utilised for efficient portfolio management purposes.

Political and economic events in the major economies of the world, such as the United States, Japan and the European Union, will influence stock and securities markets worldwide.

The main risks from the fund's holding of financial instruments with the ACD's policy for managing these risks are set out below:

- i. **Credit Risk** – The fund may find that collective investment schemes in which it invests fail to settle their debts or deliver the investments purchased on a timely basis.
- ii. **Interest Rate Risk** – Debt securities may be held by the underlying investments of the fund. The Interest Rate Risk of these securities is managed by the relevant manager.
- iii. **Foreign Currency Risk** – Although the net assets of the fund are denominated in sterling, a proportion of the fund's investments in collective investment schemes have currency exposure with the effect that the balance sheet and total return can be affected by currency movements.
- iv. **Liquidity Risk** – The main liability of the fund is the cancellation of any shares that investors want to sell. Securities may have to be sold to fund such cancellations should insufficient cash be held at the bank to meet this obligation.

Smaller companies by their nature, tend to have relatively modest traded share capital, and the market in such shares can, at times, prove illiquid. Shifts in investor sentiment, or the announcement of new price-sensitive information, can provoke significant movement in share prices, and make dealing in any quantity difficult.

The equity markets of emerging countries tend to be more volatile than the more developed markets of the world. Standards of disclosure and accounting regimes may not always fully comply with international criteria, and can make it difficult to establish accurate estimates of fundamental value. The dearth of accurate and meaningful information and insufficiencies in its distribution, can leave emerging markets prone to sudden and unpredictable changes in sentiment. The resultant investment flows can trigger significant volatility in these relatively small and illiquid markets. At the same time, this lack of liquidity, together with the low dealing volumes, can restrict the ACD's ability to execute substantial deals.

- v. **Market Price Risk** – Market Price Risk is the risk that the value of the fund's financial instruments will fluctuate as a result of changes in market prices caused by factors other than interest rates or foreign currency movement. The Market Price Risk arises primarily from uncertainty about the future prices of financial instruments that the fund holds.

Market Price Risk represents the potential loss the fund may suffer through holding market positions in the face of price movements. This risk is generally regarded as consisting of two elements – Stock Specific Risk and Market Risk. The fund's exposure to Stock Specific Risk is reduced for equities and bonds through the holding of a diversified portfolio in accordance with the investment and borrowing powers set out in the Instrument of Incorporation.

- vi. **Counterparty Risk** – Transactions in securities entered into by the fund give rise to exposure to the risk that the counterparties may not be able to fulfil their responsibility by completing their side of the transaction.
- vii. **Fair Value of Financial Assets and Financial Liabilities** – There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value.
