Fund objective

The Fund objective is to provide long-term capital growth. It seeks to achieve this by investing in companies screened against defined responsible and sustainable criteria, including exclusions on tobacco, alcohol, weapons, gambling, nuclear and pornography. The Fund also requires companies to meet sector standards on social and environmental impacts, including systems for managing labour standards, human rights, supply chains, environmental impacts, water, waste and biodiversity.

Risk warning

The value of your investments and any income from them can go down as well as up and you may not get back the original amount invested. Screening out sectors or companies may result in less diversification and hence more volatility in investment values.

Glossary

Active Engagement Report	We define engagement as dialogue between investors and companies with a focus on encouraging companies to address strategic issues including environmental, social and governance factors. The objective of such dialogue with companies is to reduce risk and support long-term performance. The table sets out, for the fund, the number of companies we have engaged with; the number of countries covered and the individual engagement themes.
Quartile Ranking	A measure of performance where all funds within the sector are ranked and split into 4 groups. The best 25% performing funds are in the first (1) quartile, the next 25% into the second (2) quartile and the worst 25% into the fourth (4) quartile.
