Source: Northern Trust International Fund Administration Services (Ireland) Ltd, monthly percentage growth, GBP and has been calculated to account for the deduction of fees. Fund performance does not take account of any commissions or costs incurred by investors when subscribing for or redeeming shares. The GBP Class I Acc was launched on 21 July 2009. The index performance figures are sourced from Bloomberg and are in GBP terms. These figures refer to the past. Investments in funds are subject to risk. **Past performance is not a reliable indicator of future returns.** The money invested in a fund can increase and decrease in value and past performance is not a reliable indicator that you will get back the full amount invested. The performance calculation is based on GBP. If the currency in which the past performance is displayed differs from the currency of the country in which you reside, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency. Please see the Important Information on the last page of this document for further information on the risks to your investment.

1. The Polar Capital Global Insurance Fund was launched on 27 May 2011 (the Hiscox Insurance Portfolio Fund, launched 16 October 1998, was merged into the Polar Capital Global Insurance Fund on the date). Performance data prior to 27 May 2011 relates to the Hiscox Insurance Portfolio Fund. Whilst the investment management team and strategy are identical between the Hiscox Insurance Portfolio Fund and the Polar Capital Global Insurance Fund, please note not all terms are consistent, including fees. Please refer to the Fund Prospectus for details of the Polar Capital Global Insurance Fund. Past performance is not indicative or a guarantee of future returns. Prior to the amalgamation of both funds, the benchmark was the Datastream World Insurance Index (£). The benchmark was changed at the launch of the Polar Capital Global Insurance Fund to the MSCI Daily TR World Net Insurance Index as it is the benchmark upon which performance fees are calculated.

Glossary of Terms

Please refer to the Prospectus for further information on these definitions. This is a guide to investment terms for Polar Capital Funds plc. Some of the terms listed will not be relevant for every sub-fund. This document is intended for use by individuals who are familiar with investment terminology. Please contact your financial adviser if you need an explanation of the terms used.

Acc/Accumulation Class
Any share which accumulates all the net investment income and net realised capital gains and does not declare dividends.

Active Positions
Percentage weighting in the fund of a position above or outside of the benchmark as at the date indicated.

Active Share
Active Share is a measure of the percentage of stock holdings in a fund that differ from the benchmark index.

Alpha
The excess return on an investment in the fund compared to the benchmark.

Annual Fee
A charge made each year to cover the expenses associated with running the fund. Although it is expressed in annual percentage figures it is usually split into 12 monthly amounts and taken from the fund monthly.

Ann/Annualised
The amount the Fund has gained or lost over a rolling 12 month period as a percentage after fees.

AUM
Assets under management.

Base Currency
The currency in which the net asset value of each portfolio is calculated.

Beta
A statistical estimate of the fund's volatility in comparison to its benchmark.

Beta Adjusted Net
(Beta of long positions X long position weighting) - (beta of short positions X short position weighting)

Bloomberg
A financial data and news company headquartered in New York. Traders, fund managers or analysts use Bloomberg terminals to extract data, securities prices and other financial information.

Bond
A debt investment where an investor loans money to an entity which borrows the funds for a defined period of time at a variable or fixed interest rate. Owners of bonds are creditors of the issuer.

Bottom Up Stock Selection/ Portfolio Construction
An investing approach which focuses on the analysis of individual stocks rather than the broader market and economic environment.

Capital Structure
A capital structure is a mix of a company's long-term debt, specific short-term debt, common equity and preferred equity. The capital structure is how a firm finances its overall operations and growth by using different sources of funds.

Cum/Cumulative
The total amount the Fund has gained or lost in the period specified as a percentage after fees.

Convertible (Bonds)
Convertible Bonds are securities that can be converted into ordinary shares of the underlying company, typically at the investors discretion.

Cut-Off
The specified end of the trading day to accurately define settlement periods with respect to buying and selling trades.

Dealing
Arranging the sale and purchase of units or shares in the Fund.

Delta
The ratio comparing the change in the price of the underlying asset to the corresponding change in the price of a derivative.

Discrete Annual Performance
Discrete performance is calculated between two fixed specific time and static dates.

Dist/Distributing Class
Any share class which can declare and distribute dividends.

Domicile
The geographical location where a fund is incorporated.

Effective Method
The practice of accounting for the discount at which a financial asset is bought as interest income over the relevant period.

Equity/Security
The percentage of the fund that is currently invested in the equity market.

Financial Derivatives Instruments
A financial contract whose value is related to the underlying asset or financial index. Derivatives may be used by fund managers to manage risk in their portfolios, for greater flexibility to lower costs and to enhance returns.

Fixed Income
Any type of investment under which the borrower or issuer is obliged to make payments of a fixed amount on a fixed schedule.

Geographic Exposure
The geographical location in which the holdings of the Fund are listed. Exposure represents the relative risk particular to the percentage of investment in that particular geographic location.

Hedged class
A share class which is denominated in a currency other than the base currency of the portfolio. The investment manager employs techniques and instruments to protect against fluctuations between the class and the base currency of the portfolio.

Hedged Mandatories/Hedged Mandatory Delta
A package of long Mandatory Convertibles and short Equity so that the position has a low sensitivity to the underlying stock.

High water mark
A high water mark is the highest peak in value that an investment fund or account has reached in the context of a specified period of time.

Historic Yield
A measure of the dividend return of a fund. It is calculated by dividing the dividend per share for a particular period of time by the NAV per share at a particular date and multiplying by 100.

Index
The benchmark the fund has used to track performance. Further details of this are contained in the important information section of this document.

ISIN
International Securities Identification Number. A unique international code which identifies a securities issue. Each country has a national numbering agency which assigns ISIN numbers for securities in that country.

KIID
Key Investor Information Document.

Leverage
The extent to which the Fund's investments exceed the Fund's assets.

LMV
Long Market Value. The aggregate worth of a group of securities calculated using the prior trading day's closing prices of each security in the portfolio.

Long
Buying stocks/shares and other securities with the aim of generating capital gains and income from positive performance of those assets.

Mandatory Convertible
Bond or preferred share that on maturity must convert into a specified equity.

Market Capitalisation Exposure
The percentage of the fund's assets that are invested in companies having market capitalisation of a particular size.

Monthly Distribution
Refers to income paid out to investors of a fund on a monthly basis.

NAV per Share
Is an expression for net asset value that represents a fund's value per share. It is calculated by dividing the total net asset value of the fund or company by the number of shares outstanding.

Ongoing Charges Figure (OCF)
This is a figure representing all annual charges and other payments taken from the fund.

Open-Ended UCITS
An open-ended fund is a fund which does not have restrictions on the amount of shares that the fund will issue. A UCITS is an undertaking for collective investment in transferable securities, within the UCITS regulations.

Outperformance
Where an equity or financial instrument has performed better than the market return.

Overweight
Where the fund has more of a particular security when compared to the security's weight in the underlying benchmark portfolio.

Performance Attribution
The difference between the portfolio return and the benchmark return. The Top Contributors to the Fund reflect the portfolio holdings which most contributed to positive performance in the Fund. The Top Detractors indicate which holdings in the portfolio influenced underperformance in the fund against the benchmark.

Performance Fee
A fee charged on any returns that, subject to a High Water Mark, the fund achieves above its performance fee benchmark. Please refer to the prospectus for further information.

Portfolio
A grouping of financial assets such as stocks, bonds and cash equivalents, managed by a financial professional.

Share class
Share class is a designation applied to a share in a fund. Different share classes within the same fund will confer different rights on their owners.

Sharpe Ratio
A measure of risk adjusted performance. The higher the ratio, the better risk adjusted performance has been.

Short
Borrowing shares to sell in the open market with the goal of buying these shares back at lower prices in the future, and at that time returning the shares to the lender.

Tracking Error
Measures how closely the fund's performance follows the benchmark.

Underperformance
Where an equity or financial instrument has performed worse than the market return.

Underweight
Where the fund has less of a particular security when compared to the security's weight in the underlying benchmark portfolio.

Valuation
The worth of an asset company based on its current price.

Volatility of Returns
Volatility is a measure of how quickly the value of an investment rises and falls over time and is a term applied to single shares, markets and collective investments schemes.

YTD
Year-to-Date. Refers to the amount the Fund has gained or lost since the first day of the calendar year.

Important Information

Important Information: Global Insurance Fund (the "Fund") is a sub-fund of Polar Capital Funds plc - which is authorised by the Central Bank of Ireland as an Undertaking for Collective Investment in Transferable Securities under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. 352/2011), as amended. This document has been prepared by Polar Capital LLP for informational purposes only for the sole use of the intended recipient. It does not seek to make any recommendation to buy or sell any particular security (including shares in the Fund) or to adopt any specific investment strategy. This document does not contain information material to an investor's decision to invest in the Fund. Shares in the Fund are offered only on the basis of information contained in the prospectus, key investor information document ("KIID"), and the latest annual audited accounts. Copies are available free of charge from Polar Capital LLP at the below address or on www.polarcapital.co.uk. The KIID is available in Danish, Dutch, English, French, German, Italian, Norwegian, Spanish and Swedish. The prospectus is available in English.

Regulatory Status: Polar Capital LLP is a limited liability partnership (OC314700), authorised and regulated by the UK Financial Conduct Authority and is registered as an investment adviser with the US Securities & Exchange Commission. Data/Holdings: Polar Capital LLP makes no express or implied warranties or representations with respect to the accuracy and completeness of any data. Data should not be relied upon as such information is subject to change, without notice, at the discretion of Polar Capital LLP. The holdings may represent only a small percentage of the aggregate portfolio holdings, are subject to change without notice, and may not represent current or future portfolio composition. Information on particular holdings may be withheld if it is in the Fund's best interest to do so.

Benchmark: The following benchmark index is used: MSCI Daily TR World Net Insurance Index. This benchmark is generally considered to be representative of the World Insurance Universe. This benchmark is a broad-based index which is used for comparative/illustrative purposes only and has been selected as it is well known and is easily recognizable by investors. Please refer to www.mscibarra.com for further information on this index. Comparisons to benchmarks have limitations as benchmarks' volatility and other material factors may differ from the Fund. Security holdings, industry weightings and asset allocation made for the Fund may differ significantly from the benchmark. Accordingly, investment results and volatility of the Fund may differ from those of the benchmark. The index noted in this document is unmanaged, unavailable for direct investment, and is not subject to management fees, transaction costs or other types of expenses that the Fund may incur. The performance of the index reflects reinvestment of dividends and, where applicable, capital gain distributions. Therefore, investors should carefully consider these differences when evaluating comparative benchmark data performance. Information regarding the index is included merely to show general trends in the periods indicated and is not intended to imply that the Fund was similar to the index in composition or risk.

Performance: The performance shown has been calculated to account for the deduction of fees and expenses and includes the reinvestment of dividends and capital gain distributions. £ or GBP/US$/JPY/EUR/CHF = Currency abbreviations of: British Pound sterling/US Dollar/Japanese Yen/Euro/Swiss Franc, respectively.
