# Breakdown By Market Cap (%)

The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested. The Fund invests in smaller companies which carry a higher degree of risk than larger companies. The shares of smaller companies may be less liquid and their performance more volatile over shorter time periods. The Fund invests mainly in the UK. Therefore it may be more vulnerable to market sentiment in that country. To ensure that the principal objective of providing an above average and subsequently increasing level of income can be met, the annual Manager's charge is deducted from capital rather than income. Future capital growth may be constrained as a result. You are required to read the Key Investor Information Document (KIID) before making an investment. The KIID and prospectus for all funds are available free of charge at twww.marlboroughfunds.com or by calling 0808 145 2500. This fact sheet may contain FTSE data.
