Ratings

Morningstar - ★★★★★

Fund aim

The Fund aims to achieve a return through capital growth and income, that is above the average return expected from an investment in European (excluding UK) shares. The Fund invests in a concentrated portfolio of shares of companies with their registered office in or which do most of their business (directly or through subsidiaries) in Europe (excluding UK), in any industry. The Fund will typically hold 30-50 stocks. The Fund may also invest in money market instruments and bank deposits. The Fund may use derivatives to reduce risk or to manage the Fund more efficiently.

Additional information

Performance for the share class is calculated at 12pm and performance of the index is calculated as at close of business. Note that any differences among portfolio securities currencies, share class currencies, and your home currency will expose you to currency risk.

What are the risks specific to this fund?

- Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.
- Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.
- If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.
- This fund is designed to be used only as one component in several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this fund.
- This Fund may have a particularly concentrated portfolio relative to its investment universe or other funds in its sector. An adverse event impacting even a small number of holdings could create significant volatility or losses for the Fund.
- The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.
- If the Fund holds assets in currencies other than the base currency of the Fund or you invest in a share class of a different currency to the Fund (unless 'hedged'), the value of your investment may be impacted by changes in exchange rates.
- The Fund could lose money if a counterparty with which it trades becomes unwilling or unable to meet its obligations to the Fund.
- Any security could become hard to value or to sell at a desired time and price, increasing the risk of investment losses.

General risks

- Past performance is not a guide to future performance.
- The value of an investment and the income from it can fall as well as rise and you may not get back the amount originally invested.
- Tax assumptions and reliefs depend upon an investor's particular circumstances and may be subject to change.

Important information

Fund size at 12pm on last business day of month. Ratings and award information: Elite Fund ratings are based on FundCalibre's research methodology and are the opinion of FundCalibre's research team only. The award of an Elite Fund rating does not mean the fund is a suitable investment for you, and does not constitute a recommendation to buy. If a fund that you already hold does not, in the opinion of FundCalibre, merit an Elite Fund rating, this does not constitute a recommendation to sell. However the knowledge that professional analysts have analysed a fund in depth before assigning them a rating can be a valuable additional filter for anyone looking to make their own decisions. Funds worthy of Square Mile recommendation's may be rated as AAA, AA or A. Square Mile expects any active fund to add value over a corresponding passive strategy where such an option exists and this should be reflected in the fund's objective. This added value is provided by the production of relatively high risk adjusted returns over a suitable time period. When rating funds Square Miles constantly ask themselves whether they would be happy to invest our own money in the funds. The Square Mile AA rating is assigned to funds in which they have a high confidence that the fund over an investment cycle will meet its stated objectives. The Morningstar Analyst Rating for Funds is a forward-looking analysis of a fund. Morningstar has identified five key areas crucial to predicting the future success of a fund: People, Parent, Process, Performance and Price. The pillars are used in determining the Morningstar Analyst Rating for a fund. Morningstar Analyst Ratings are assigned on a five-tier scale running from Gold to Negative. The top three ratings, Gold, Silver and Bronze all indicate that Morningstar's analysts think highly of a fund; the difference between them corresponds to differences in the level of analyst conviction in a fund's ability to outperform its benchmark and peers through time, within the context of the level of risk taken over the long term. Neutral represents funds in which Morningstar's analysts don't have a strong positive or negative conviction over the long term and Negative represents funds that possess at least one flaw that Morningstar's analysts believe is likely to significantly hamper future performance over the long term. Long terms is defined as a full market cycle or at least five years. * Yields are shown net except for bond funds which are shown gross. The Historical Yield reflects distributions declared over the past 12 months as a percentage of the mid-market share price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions. * Index: The FTSE World Europe (Ex UK) Index is a measure of the combined performance of large and medium sized companies from developed and advanced emerging European stock markets excluding the UK. It provides a useful comparison against which the Fund's performance can be assessed over time. ** Peer group benchmark: The Investment Association (IA) groups funds with similar geographic and/or investment remit into sectors. The Fund's ranking within the sector (as calculated by a number of data providers) can be a useful performance comparison against other funds with similar aims. Please note: due to rounding the figures in the holdings breakdowns may not add up to 100%. Unless otherwise indicated all figures sourced from Morningstar, Datastream, BNP Paribas and Janus Henderson Investors. Please note the views, opinions and forecasts expressed in this document are based on Janus Henderson Investors research, analysis and house views at the time of publication. Third party data is believed to be reliable, but its completeness and accuracy is not guaranteed. Please read all scheme documents before investing. Before entering into an investment agreement in respect of an investment referred to in this document, you should consult your own professional and/or investment adviser. The value of an investment and the income from it can fall as well as rise and you may not get back the amount originally invested. Tax assumptions and reliefs depend upon an investor's particular circumstances and may change if those circumstances or the law change. If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially than those shown on this document. Nothing in this document is intended to or should be construed as advice. This communication does not constitute an offer or a recommendation to sell or purchase any investment. It does not form part of any contract for the sale or purchase of any investment. Any investment application will be made solely on the basis of the information contained in the Prospectus (including all relevant covering documents), which will contain investment restrictions. This document is intended as a summary only and potential investors must read the prospectus, and where relevant, the key investor information document before investing. We may record telephone calls for our mutual protection, to improve customer service and for regulatory record keeping purposes. Issued by UK by Janus Henderson Investors.
