European Smaller Companies Equity Fund

As at 31 January 2019

Total Fund Assets: €214.5 million

Figures shown in Euros

Portfolio Manager:
Ben Griffiths

Managed Fund Since:
2016

Joined Firm:
2006

INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of its investments. The fund invests mainly in a diversified portfolio of stocks of smaller publicly traded European companies.

Effective 1 July 2018, the "net" version of the indicative benchmark replaced the "gross" version of the indicative benchmark. The "net" version of the indicative benchmark assumes the reinvestment of dividends after the deduction of withholding taxes.

Performance for additional share classes is shown later in this document.

Past performance is not a reliable indicator of future performance.

Source for performance: T. Rowe Price. Fund performance is calculated using the official NAV with dividends reinvested, if any. The value of the investment will vary and is not guaranteed. It will be affected by changes in the exchange rate between the base currency of the fund and the subscription currency, if different. Sales charges (up to a maximum of 5% for the A Class), taxes and other locally applied costs have not been deducted and if applicable, they will reduce the performance figures.

Please note that no management fees are charged to the Z, S and J share classes. No administration agent fees are charged to the J Class. No expenses or any other fees are charged to the Z class. Fee arrangements for the Z, S and J share classes are made directly with the investment manager. Please see the prospectus for further information.

Where the base currency of the fund differs from the share class currency, exchange rate movements may affect returns.

Hedged share classes (denoted by 'h', 'b' or 'n') utilize investment techniques to mitigate currency risk between the underlying investment currency(ies) of the fund and the currency of the hedged share class. The costs of doing so will be charged to the share class and there is no guarantee that such hedging will be effective.

Performance data will be displayed when a share class has more than 1 year history of returns.

The indicative benchmark of the fund is not a formal benchmark but is shown for comparison purposes.

MSCI Index returns are shown with net dividends reinvested.

Index returns are calculated in US Dollars and converted to EUR using an exchange rate determined by an independent third party.

Risks - The following risks are materially relevant to the fund (refer to prospectus for further details):

Country risk (Russia and Ukraine) - in these countries, risks associated with custody, counterparties and market volatility are higher than in developed countries. **Currency risk** - changes in currency exchange rates could reduce investment gains or increase investment losses. **Small and mid-cap risk** - stocks of small and mid-size companies can be more volatile than stocks of larger companies.

IMPORTANT INFORMATION

General fund risks - to be read in conjunction with the fund specific risks above. **Capital risk** - the value of your investment will vary and is not guaranteed. It will be affected by changes in the exchange rate between the base currency of the fund and the currency in which you subscribed, if different. **Equity risk** - in general, equities involve higher risks than bonds or money market instruments. **Geographic concentration risk** - to the extent that a fund invests a large portion of its assets in a particular geographic area, its performance will be more strongly affected by events within that area.

Hedging risk - a Fund's attempts to reduce or eliminate certain risks through hedging may not work as intended. **Investment fund risk** - investing in funds involves certain risks an investor would not face if investing in markets directly. **Management risk** - the investment manager or its designees may at times find their obligations to a fund to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably). **Operational risk** - operational failures could lead to disruptions of fund operations or financial losses.
