Regulator:	Financial Conduct Authority
Document valid as at:	20/12/2017

What is this product?

Type:

Aberforth Smaller Companies Trust plc (the Company) is an investment trust whose shares are listed on the London Stock Exchange and an Alternative Investment Fund under the Alternative Investment Fund Managers Directive.

Objective and key points:

The Company's objective is to achieve a net asset value total return (with dividends reinvested) greater than that of the Numis Smaller Companies Index (excluding Investment Companies) (NSCI (XIC)) over the long term by investing in a diversified portfolio of securities issued by small UK quoted companies.

The Company may, at any time, borrow money via its debt facility to purchase assets for the Company. This could magnify any gains or losses made by the Company.

The Company's shares are bought and sold via markets. Typically, at any given time on any given day, the price you pay for a share will be higher than the price at which you could sell it.

The Company's shares do not have a fixed duration. However, in accordance with the Company's Articles of Association, shareholders are asked every three years to vote on the continuation of the Company. The next vote will occur at the Annual General Meeting in 2020.

Intended retail investor:

This product is suitable for investors planning to hold an investment for the medium to long-term (at least 5 years) and is designed to be used as one component in an investment portfolio – **potential investors in the Company's Ordinary shares are advised to consult their professional investment advisers in respect of any investment decision in relation to those shares.**

What are the risks and what could I get in return?

Lower risk — Higher risk

The risk indicator assumes you hold your investment for 5 years. The actual risk can vary significantly if you sell your investment within a shorter timeframe and you may get back less. You may not be able to sell your investment easily, or may have to sell at a price that significantly impacts on how much you get back.

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as class 4 out of 7, which is a medium risk class.

This classifies the potential volatility from future performance at a medium level, and poor market conditions are likely to impact the capacity for you to receive a positive return on your investment. This classification is based on the volatility of the product's share price returns over 5 years.

Investments in shares of smaller companies are generally considered to carry a higher degree of risk. The performance of shares of smaller companies may be more volatile than the shares of larger companies over short time periods.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

Investment 10,000 GBP Scenarios		1 year	3 years	5 years (recommended holding period)
Stress scenario	**What might you get back after costs**	1,640.57 GBP	4,770.21 GBP	**3,739.94 GBP**
	Average return each year	-83.59%	-21.86%	-17.86%
Unfavourable scenario	**What might you get back after costs**	9,052.2 GBP	10,081.81 GBP	**11,867.12 GBP**
	Average return each year	-9.48%	0.27%	3.48%
Moderate scenario	**What might you get back after costs**	11,567.11 GBP	15,376.53 GBP	**20,440.51 GBP**
	Average return each year	15.67%	15.42%	15.37%
Favourable scenario	**What might you get back after costs**	14,624.17 GBP	23,203.48 GBP	**34,834.8 GBP**
	Average return each year	46.24%	32.39%	28.35%

This table shows the money you could get back over the recommended holding period, under different scenarios, assuming that you invest 10,000 GBP.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Aberforth Smaller Companies Trust plc is unable to pay out?

As a shareholder of the Company you would not be able to make a claim to the Financial Services Compensation Scheme about the Company in the event that the Company is unable to pay out.

What are the costs?

Costs over time

The Reduction in Yield (RIY) illustrates the impact the total costs you pay may have on your investment return. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods, and assume you invest 10,000 GBP. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

Investment 10,000 GBP	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs	42.29 GBP	169.28 GBP	**376.43 GBP**
Impact on return (RIY) per year	0.42%	0.42%	0.42%

Composition of costs

The table below shows:

* The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.

* What the different cost categories mean.

One-off costs	**Entry costs**	0.00%	The impact of the costs you pay when entering your investment.
	Exit costs	0.00%	The impact of the costs of exiting your investment.
Ongoing costs	**Portfolio transaction costs**	-0.50%	The impact of the costs of Aberforth buying and selling underlying investments in the product's portfolio.
	Other ongoing costs	0.86%	The impact of the expenses necessarily incurred in the operation of the product. This includes the annual management fee paid to Aberforth and the cost of any gearing employed.
Incidental costs	**Performance fee**	0.00%	There is no performance fee.
	Carried interests	0.00%	There are no carried interests.

How long should I hold it and can I take my money out early?

Recommended minimum holding period: 5 years

Any investment in this product should be viewed as a medium to long-term investment and therefore you should be prepared to stay invested for 5 years. You may sell your investment before the end of the recommended holding period without penalty/charge.

How can I complain?

As a shareholder of the Company, you do not have a right to complain to the Financial Ombudsman Service (FOS) about the management of the Company. Complaints about the Company, or this key information document, should be sent to:

Address: 14 Melville Street, Edinburgh, EH3 7NS
Website: www.aberforth.co.uk/contact-us
E-mail: enquiries@aberforth.co.uk
