or call 0800 414177 for more information.

Regulator: Financial Conduct Authority.

Date of production 19/12/2017.

## What is this product?

### Type

This product is an investment trust company, which is a type of alternative investment fund.

### Objectives

- The Company's objective is to achieve long term capital growth from an actively managed portfolio of securities primarily of small and medium sized Japanese companies listed or traded on Japanese stock markets.
- The markets in which the Company may invest will comprise primarily the Tokyo Stock Exchange, the Nasdaq and the regional stock markets of Fukuoka, Nagoya, Osaka and Sapporo.
- The Board takes the view that investing in equities is a long term process, and that the Company's returns to shareholders will vary from year to year.
- It is able to gear and the Board takes the view that long term returns for shareholders can be enhanced by the use of gearing in a carefully considered and monitored way. The level of gearing is reviewed by the Board and the Portfolio Manager at each of its meetings.
- The Company may utilise derivative instruments, including index-linked notes, futures, Contracts For Difference ("CFDs"), covered call options, put options and other equity-related derivative instruments as a tool to meet the investment objective of the Company.
- The price of shares in the Company will depend on the performance of the value of the Company's underlying assets but, in addition, this value may be subject to a discount or a premium reflecting the price at which the Company's shares are valued and traded on the stock market.

### Intended retail investor

This product is open for an unlimited duration, however, continuation votes are held every three years at the Company's Annual General Meeting.

## What are the risks and what could I get in return?

### Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the value that will be returned to you.

This product does not include any protection from future market performance so you could lose some or all of your investment. Overseas investments may be more volatile than established markets. The shares in the investment trust are listed on the London Stock Exchange and their price is affected by supply and demand. The investment trust can gain additional exposure to the market, known as gearing, potentially increasing volatility.

## Performance Scenarios

Investment: £10,000		1 year	3 years	5 years (Recommended Holding Period)
Scenarios				
<b>Stress scenario</b>	<b>What you might get back after costs</b>	<b>£2,541.30</b>	<b>£3,354.31</b>	<b>£2,300.76</b>
	Average return each year	-74.6%	-30.5%	-25.5%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	<b>£8,824.37</b>	<b>£10,130.34</b>	<b>£12,469.15</b>
	Average return each year	-11.8%	0.4%	4.5%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	<b>£11,997.79</b>	<b>£17,225.15</b>	<b>£24,730.03</b>
	Average return each year	20.0%	19.9%	19.9%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	<b>£16,242.24</b>	<b>£29,162.79</b>	<b>£48,835.95</b>
	Average return each year	62.4%	42.9%	37.3%

This table shows the money you could get back over the next years, under different scenarios, assuming that you invest £10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if FIL Investment Services (UK) Limited is unable to pay out?

Shares of the Company are traded on the stock market. FIL Investment Services (UK) Limited, as the manager of the Company, is not involved in this process and therefore its position should not impact the settlement of a payment for the sale of shares. Shares in an investment trust company are not covered directly by the Financial Services Compensation Scheme.

## What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £10,000. The figures are estimates and may change in the future.

### Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment: £10,000	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
<b>Total costs</b>	£241.09	£1,059.98	£2,589.42
Impact on return (RIY) per year	2.41%	2.41%	2.41%

## Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- the meaning of the different cost categories.

This table shows the impact on return per year			
One-Off costs	Entry costs	N/A	The impact of the costs you pay when entering your investment.
	Exit costs	N/A	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.53%	The impact of the costs of us buying and selling underlying investments for the product.
	Insurance costs	N/A	The impact of the amount you are paying to buy insurance protection.
	Other ongoing costs	1.48%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance fees	N/A	The impact of performance fees (based on previous averages) if the Company outperforms its benchmark.
	Carried interests	N/A	The impact of carried interests.

Advisors, distributors or any other person advising on, or selling, this product will provide information detailing any cost of distribution that is not already included in the costs specified above.

The percentages shown here are an estimate of the costs. The Company's annual report for each financial year will include details of the exact charges made.

## How long should I hold it and can I take money out early?

Recommended holding period: 5 years.

Shares in the Company are traded on the stock market throughout the day and may be sold at any time without any penalty charge levied by the product manufacturer. This product may not be appropriate for investors who plan to withdraw their money before the end of the recommended holding period.

## How can I complain?

If you wish to make a complaint about this product or the conduct of FIL Investment Services (UK) Limited please visit [www.fidelity.co.uk/complaints](http://www.fidelity.co.uk/complaints). Alternatively, write to Oakhill House, 130 Tonbridge Road, Hildenborough, Kent, TN11 9DZ or email [info@fidelity.co.uk](mailto:info@fidelity.co.uk). If you have a complaint about the person who advised you about this product, or who sold it to you please contact them for their complaints process.

## Other relevant information

We publish an annual report each year that contains more information on this product, updating its policies since its last prospectus. This document also includes information on how the product is performing. These documents can be obtained from FIL Investment Services (UK) Limited or [www.fidelityinvestmenttrusts.com](http://www.fidelityinvestmenttrusts.com).
