The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

**Aviva Investors US Equity Income Fund II, Class 2, Income shares, GBP, a sub-fund of the Aviva Investors Select Funds ICVC (ISIN: GB00BCGD4P92). The Fund is managed by Aviva Investors UK Fund Services Limited.**

## OBJECTIVES AND INVESTMENT POLICY

The Fund aims to provide a rolling annual income yield 1.5% higher than the annual income yield produced by the broad US value equity share index – the Russell 3000 Value Index, together with the potential for share price growth.

The income aim detailed above is before the deduction of charges and before the deduction of tax. Income will be paid quarterly.

The Fund will invest in the shares of a broad range of US companies based on the Investment Managers view of their long term return prospects, both in terms of potential income and share price growth. Typically at least 80% of the Fund will be invested in the shares of companies listed on North American stock exchanges, which are at least 1 billion dollars in size. The Fund may have a small level of investment in other geographical regions.

The Investment Manager actively makes the investment selection decisions for the Fund.

You can buy and sell shares on any London business day.

For full investment objectives and policy details please refer to the Prospectus.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This is an income share class and any distributions from the Fund will be paid to you.

## RISK AND REWARD PROFILE

- This indicator is based on historical data, calculated using European Union rules, and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean 'risk free'.
- The value of investments and the income from them will change over time.
- The Fund price may fall as well as rise and as a result you may not get back the original amount you invested.
- The Fund has been allocated a risk number based on the historic volatility of its share price or where insufficient information is available appropriate asset classes.
- **Counterparty risk:** The Fund could lose money if an entity with which it does business becomes unwilling or is unable to meet its obligations to the Fund.
- **Currency risk:** Changes in currency exchange rates could reduce investment gains or increase investment losses. Exchange rates can change rapidly, significantly and unpredictably.
- **Equities Risk:** Equities can lose value rapidly, can remain at low prices indefinitely, and generally involve higher risks — especially market risk — than bonds or money market instruments. Bankruptcy or other financial restructuring can cause the issuer's equities to lose most or all of their value.
- **Hedging risk:** Any measures taken to offset specific risks will generate costs (which reduce performance), could work imperfectly or not at all, and if they do work will reduce

opportunities for gain.

- **Illiquid securities risk:** Certain assets held in the Fund could, by nature, be hard to value or to sell at a desired time or at a price considered to be fair (especially in large quantities), and as a result their prices could be very volatile.
- **Operational risk:** Human error or process/system failures, internally or at our service providers, could create losses for the Fund.
- **Target outcome risk:** Any outcomes stated as targets are not guaranteed and may not be achieved.
- Full information on the risks applicable to the Fund is detailed in the Prospectus.

## CHARGES

### One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

### Charges taken from the Fund over a year

Ongoing charges	0.88%
-----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds run by Aviva Investors UK Fund Services Limited) you might pay less – you can find the actual entry and exit charges from your financial adviser/distributor.

The ongoing charges figure is based on last year's expenses for the year ending August 2016. The figure for ongoing charges excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, including a full explanation of any performance fee (if applicable) please see the charges sections of the Fund's Prospectus.

## PAST PERFORMANCE

- Past performance is no guide to future performance.
- The past performance shown in the chart opposite takes into account all charges except entry charges.
