

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

Artemis Income Fund (the "fund")

Class I accumulation units, GBP [ISIN: GB00B2PLJH12]

The fund is managed by Artemis Fund Managers Limited.

Objectives and investment policy

Objective: The fund aims to increase the value of units and the income paid from them over the long term.

Policy:

- The fund will principally invest (a minimum of 80%) in the shares of companies listed, quoted or traded in the UK.
- The fund has discretion in its choice of investments and is not restricted by the size of the company, the industry it trades in, or the geographical spread of the portfolio.
- The fund may invest in fixed interest securities which are investments (which could be issued by a company, a government or another entity) that pay a fixed level of income or interest.
- The fund may invest in preference shares. These are investments (issued by a company) that pay a fixed level of income. The income is paid as a dividend rather than interest and must be paid before any income from the company's other non-preference shares.
- The fund may invest in convertible bonds. These are investments (issued by a company) that can be exchanged for ordinary shares of the same company according to the terms specified when the bond was issued.
- The fund may invest in derivatives (financial instruments whose value is linked to the expected price movements of an underlying asset) to protect the value of the fund, reduce costs and/or generate additional income.

Other information:

- Investment in the fund should be regarded as a medium to long-term investment.
- Class I units are only available to investors at Artemis Fund Managers Limited's discretion.
- You can buy and sell units Monday to Friday, except on UK public holidays, each week.
- Transactions are processed at 12 noon UK time and we will include your instruction to buy or sell units if it is received before that point.
- Any income this fund receives is reinvested into the fund and automatically reflected in the value of units.

For further explanation of some of the terms used above, please visit our website artemis.co.uk/glossary to view a glossary of terms.

Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the fund.
- The risk category shown is not guaranteed and may change over time.
- A risk indicator of "1" does not mean that the investment is "risk free".
- The indicator is not a measure of the possibility of losing your investment.

The risk indicator for the fund is as above because:

- The price of units, and the income from them, can fall and rise because of stockmarket and currency movements.
- Stockmarket prices, currencies and interest rates can move irrationally and can be affected unpredictably by diverse factors, including political and economic events.
- A portion of the fund's assets may be invested in a currency other than the fund's accounting currency (sterling). The value of these assets, and the income from them, may decrease if the currency falls in relation to sterling, in which the fund is valued and priced.
- Investments in fixed interest securities are subject to market and credit risk and will be impacted by movements in interest rates. Interest rate movements are determined by a number of

economic factors, in particular market expectations of future inflation.

- The fund can invest in higher-yielding bonds, which may increase the risk to your capital due to a higher likelihood of the company issuing the bonds failing to pay returns on investments. Changes to market conditions and interest rates can have a larger effect on the values of higheryielding bonds than other bonds.

Charges for the fund

- The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. The charges reduce the potential growth of your investment.
- The entry charge is included in the purchase price of each unit.

One-off charges taken before or after you invest

Entry charge	1.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charge	0.79%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

- At present, there is no exit charge.
 - The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds run by Artemis Fund Managers Limited) you might pay less – you can find out actual entry and exit charges from your financial adviser.
 - The ongoing charges figure is based on the expenses for the year ending December 2015.
 - Ongoing charges may vary from year to year and reduce the potential growth of your investment. The figure for ongoing charges excludes costs associated with buying and selling securities in the fund's underlying portfolio (for example, brokers' commission and transaction taxes), except in the case of an entry/exit charge paid by the fund when buying or selling shares or units in another collective investment undertaking.
 - To provide levels of income consistent with the fund's aims, we take the annual management charge from capital. This will restrict the increase in the value of units.
 - The annual management charge is taken from income.
- For more information about charges, please see section 15 of the fund's prospectus, which is available at www.artemis.co.uk.

Past performance

- Past performance in the chart shown includes all charges except entry charges.
- How the fund has performed in the past is not a guide to how it will perform in the future.
- Performance is calculated in sterling.
- This fund was launched on 6 June 2000.
- This class was launched on 7 March 2008.
- In the period to 7 March 2008, past performance is represented by the fund's R class units.
