## OBJECTIVES AND INVESTMENT POLICY

The Fund aims to grow your investment and provide a level of income.

The Fund typically invests up to 90% in commercial property in the UK and can invest up to 30% in property related shares. From time to time a level of cash is held in the Fund to enable property transactions and help meet withdrawal requests.

The Fund may also invest in shares, bonds, gilts, and other funds and can also invest in other investments allowed under UK Fund rules.

The Investment Adviser actively makes the investment selection decisions for the Fund.

You can buy and sell shares on any business day in London.

For full investment objectives and policy details please refer to the Prospectus.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This is an accumulation share class and any income from the Fund will remain in the Fund and is reflected in the share price.

## RISK AND REWARD PROFILE

- The value of investments and the income from them will change over time.
- Inflation will reduce the buying power of your money over time.
- You may not get back the original amount you invested.
- Investment performance is not guaranteed.
- Past performance is no guide to future performance.
- Investments in property are relatively illiquid and more difficult to realise than equities or bonds.
- There is no assurance that the estimates resulting from the valuation process will reflect the actual sales price even where a sale occurs shortly after the valuation date.
- The performance of the Fund would be adversely affected by a downturn in the property market in terms of capital value or a weakening of rental yields. Commercial property values are affected by such factors as the level of interest rates, economic growth, fluctuations in property yields and tenant default. Hence, on the realisation of the investment, investors may receive less than the original amount invested. In the event of a default by an occupational tenant, the Company will suffer a rental shortfall and is likely to incur additional cost including legal expenses, in maintaining, insuring and reletting the property. In addition, certain significant expenditures, including operating expenses, must be met by the owner even when the property is vacant.

## CHARGES

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds run by Aviva Investors UK Fund Services Limited) you might pay less – you can find the actual entry and exit charges from your financial adviser/distributor.

The ongoing charges figure is based on last year's expenses for the year ending May 2016. The figure for ongoing charges excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, including a full explanation of any performance fee (if applicable) please see the charges sections of the Fund's Prospectus.
