Fund manager profile

Cazenove Capital Management is one of the oldest and most respected names in the financial community, tracing its origins back to 1823. Today, Cazenove Capital is an independent asset management business, a corporate structure that suits the roles we fulfil for our clients. For our institutional clients we are a focused, specialist asset manager while our private and charity clients value our ability to act as their impartial trusted adviser. The business is divided into three principal areas. Private Wealth Management £5.8bn, Investment Funds £5.0bn, Charities £2.4bn.
