Aims

Objective: The investment strategy of the fund is to purchase units in the BlackRock UK Fund - the underlying fund.

Underlying Fund Objective: The fund aims to provide a return on your investment (generated through an increase in the value of the assets held by the Fund) (gross of fees) over the long term (5 or more consecutive years beginning at the point of investment) by investing in the shares of larger companies incorporated or listed in the UK.

Performance

Fund Managers

Name: Nicholas Little
 Manager of the underlying fund for: 10 years, 11 months

Ratings

FE Crown

Important Information

- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with net income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
