## **Aims**

The Fund aims to achieve income and capital growth over the medium to long term (3 to 5 years plus). The Fund invests at least 80% of its assets in debt securities (including investment grade, non-investment grade and unrated) issued by governments, supranational bodies, other public entities as well as by companies, globally. The Fund will take active currency positions globally. In pursuing the Fund's investment objective, the fund manager may consider it appropriate to also invest in other transferable securities, money market instruments, collective investment schemes (including funds managed by the Invesco group), deposits and cash.

## **Important Information**

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
