Launch date	20/10/2008

Fund Charges

Yearly Total	2.20%
Further Costs	0.20%
Annual Management Charge (AMC)	2.00%

Aims

Objective: The investment strategy of the fund is to purchase units in the Fidelity Asia Fund - the underlying fund.

Underlying Fund Objective: The fund aims to increase the value of your investment over a period of 5 years or more. The fund will invest at least 70% in equities (and their related securities) of companies throughout Asia (excluding Japan) (those domiciled, incorporated or having significant business in Asia (excluding Japan) and those which are listed in the region).

The remainder will be invested in companies outside of the region detailed above and in other investment types such as cash and derivatives.

Fund Managers

Name: Teera Chanpongsang Manager of the underlying fund for: 11 years, 10 months

Ratings

FE Crown

Important Information

- Because of changes in exchange rates the value of your investment, as well as any money you take from it, can go down as well as up.
- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with net income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
