Aims

Objective: The investment strategy of the fund is to purchase units in the M&G Optimal Income Fund - the underlying fund. Underlying Fund Objective: The Fund aims to provide a higher total return (the combination of capital growth and income), net of the Ongoing Charge Figure, than the average return of the composite index, over any five-year period. The composite index is made up of one third Bloomberg Global Treasury Index GBP Hedged, one third Bloomberg Global Aggregate Corporate Index GBP Hedged and one third Bloomberg Global High Yield Index GBP Hedged.

At least 50% of the fund is invested, directly or indirectly through derivatives, in debt securities, including investment grade bonds, below investment grade, unrated securities and Asset Backed Securities. These securities can be issued or guaranteed by governments and their agencies, public authorities, quasi-sovereigns, supranational bodies and companies from anywhere in the world, including Emerging Markets. These securities can be denominated in any currency. Other investments may include: - up to 20% of the fund in equities; and - other transferable securities, cash, and near cash, directly or via collective investment schemes (including funds managed by M&G).

There are no credit quality restrictions applicable to the fund's investments. At least 80% of the fund is in sterling or hedged back to sterling. Derivatives may be used for investment purposes, efficient portfolio management and hedging.

The Fund is actively managed. The fund manager has complete freedom in choosing which investments to buy, hold and sell in the Fund.

Important Information

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with gross income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
