#### **Aims**

The aim of the BlackRock Continental European Income Fund is to achieve an above average income from its equity investments, compared to the income yield of European equity markets (excluding the UK), without sacrificing long term capital growth. The Fund will invest primarily in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in Europe excluding the UK. The Fund may also invest in other transferable securities, permitted money market instruments, permitted deposits, cash and near cash and units in collective investment schemes. Derivatives may be used for the purposes of efficient portfolio management.

#### **Important Information**

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
