

Aims

**Objective:** The investment strategy of the fund is to purchase units in the M&G UK Equity Fund - the underlying fund.

**Underlying Fund Objective:** The fund invests, via other M&G funds, in the shares of UK companies. The fund is actively managed against its benchmark, the FTSE All-Share Index. It is a “fund of funds” holding units in several more specialised UK equity funds giving access to a variety of methods for generating investment returns in differing market conditions. Derivative instruments may be used for efficient portfolio management.

**Performance Objective:** To outperform the benchmark by 0.75% - 1.0% a year (before charges) on a rolling three year basis.

Prudential Risk Rating

**Higher Risk**

These are specialist equity funds that focus on set geographical regions or a particular type of share e.g. shares of smaller companies or those that conform to certain criteria.

These risk ratings have been developed by Prudential to help provide an indication of a fund’s potential level of risk and reward based on the type of assets which may be held by the fund. Other companies may use different descriptions and as such these risk ratings should not be considered as generic across the fund management industry.

We regularly review our fund risk ratings, so they may change in the future. If, in our view, there is a material change in the fund's level of risk, for example due to a significant change to the assets held by the fund or in the way the fund is managed, we will provide information on the new risk rating. We recommend that you make sure you understand the risk rating of any fund before you invest.

Fund Managers

Name: M&G Treasury & Investment Office  
Manager of the underlying fund for: 9 years, 2 months

Important Information

- Because of changes in exchange rates the value of your investment, as well as any money you take from it, can go down as well as up.
- Some funds may invest in ‘underlying’ funds or other investment vehicles. The performance of our fund, compared to what it’s invested in won’t be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund’s dealing cycle, it varies between managers and can be several days).

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can’t predict the future. Past performance isn’t a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with gross income reinvested. The value of your client’s investment can go down as well as up and the amount your client gets back may be less than they put in.
- This factsheet is intended for the advisers of occupational pension schemes using Prudential group pension contracts and Prudential grouped personal pensions and Stakeholder pension contracts. Its purpose is to provide an insight into how investment markets and funds have performed over the period and is provided for information only. You should refer to your client’s scheme documentation (e.g. Fund Guide) for fund availability, investment strategy, any scheme information and charges. Every care has been taken in populating this output, however it must be appreciated that neither Broadridge, Prudential nor their sources guarantee the accuracy, adequacy or completeness of this information or make any warranties regarding results from its usage.

Important Information

- Because of changes in exchange rates the value of your investment, as well as any money you take from it, can go down as well as up.
- The Industry Classification Benchmark is a product of FTSE International Limited and has been licensed for use.
- 'Prudential' is a trading name of Prudential Pensions Limited. Prudential Pensions Limited is registered in England and Wales. Registered office at 10 Fenchurch Avenue, London EC3M 5AG. Registered number 992726. Authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority.

## Commentary

Performance as at Q4 2024 - UK equities ended 2024 with a small decline in the fourth quarter and trailed the US and global market (in sterling terms). Even with a weak final three months, the FTSE All-Share Index registered a solid return of 9.5% for 2024 as a whole. Investors had to navigate an uncertain economic backdrop in the period, including evidence that the UK economy was contracting, a pick-up in inflation and a tax-raising budget from the new government. The best performing sectors included financials, oil & gas and technology. On the other hand, basic materials fell sharply, amid concerns about China's economy. Utilities and real estate stocks, which are considered sensitive to interest rates, declined, as UK rates are expected to remain high for longer. The larger international companies in the FTSE 100 outperformed their smaller, domestically focused counterparts.
