Aims

The European High Yield Bond Portfolio seeks to achieve a total return from income and capital appreciation by investing principally in Euro or Sterling denominated fixed income securities that are rated below Investment Grade. The Portfolio will principally invest in fixed income securities issued by companies domiciled in Europe, or with significant European operations. The Portfolio may invest in CoCos (not exceeding 10% of the Portfolio's Net Asset Value). The Portfolio may use financial derivative instruments for hedging purposes. Typically, where securities are denominated in a currency other than Euro it is intended that they will typically be hedged back into Euro. The weighted average credit rating is expected to be BB- as rated by S&P or Fitch or the Moody's equivalent of Ba3.

Important Information

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
