Aims

Objective: The investment strategy of the fund is to purchase units in the M&G PP Cash Fund - the underlying fund.

Underlying Fund Objective: The fund invests in both secured (reverse repurchase agreements) and unsecured interest bearing deposits, as well as short-term UK Government bonds and Certificates of Deposit. It is actively managed against its benchmark, the Sterling Overnight Index Average 1 Week.

Performance Objective: To perform in line with the benchmark before charges on a rolling three year basis.

FE Crown

Important Information

- Because of changes in exchange rates the value of your investment, as well as any money you take from it, can go down as well as up.
- If you take more money from the plan than the amount your investment has grown by, the value of your investment will be less than you've put in.
- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with gross income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
