Important Information

- Source of portfolio data: Broadridge. Source of performance data: Broadridge. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.

Investors should refer to their policy documentation and supporting brochures for fund availability, investment strategy, any product information and charges. Every care has been taken in populating this output, however it must be appreciated that neither Broadridge, Prudential nor their sources guarantee the accuracy, adequacy or completeness of this information or make any warranties regarding results from its usage.

Aims

The investment objective of the Company is to deliver capital and income appreciation. The Company will seek to achieve this investment objective primarily through investment in and/or exposure to a combination of investments in UK commercial property and securities of property and property related issuers listed or operating in the countries of the EU and/or the EEA.

While the securities in which the Company invests will mainly be equity securities, investment may also be made in fixed interest securities, securities convertible into equities and derivatives.

The Company may use derivatives for investment purposes as well as for efficient portfolio management. Such derivatives may include, but will not be restricted to, swaps, contracts for difference, forward currency contracts and financial futures and options.

The Portfolio may invest all or part of its assets in cash or money market instruments (including government securities) if, in the opinion of the ACD, the prevailing market and economic conditions warrant the adoption of such a policy.

Up to 10% of the Portfolio may be invested in separately managed funds (including collective investment schemes) investing predominantly in securities in which the Company may invest.

Non-sterling investments may be hedged back to sterling.
