Aims

The fund has two aims: to provide combined capital growth and income that is higher than that of the MSCI World Index over any five-year period; and to invest in companies that aim to deliver solutions to the challenge of climate change. At least 80% of the fund is invested in the shares of companies from any developed market. The fund usually holds shares in fewer than 40 companies. The fund invests over the long term in companies delivering solutions to the climate change challenge alongside a financial return. Sustainability and impact considerations are fundamental in the stock selection process. The fund embraces the UN Sustainable Development Goals framework and invests in companies focused on areas including clean energy, green technology and the promotion of a circular economy.

Important Information

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
