Aims

The objective of the Sub-Fund is to achieve significant real rates of return in Sterling terms predominantly from a portfolio of UK and international securities. The Sub-Fund is managed to seek a minimum return of cash (1 month GBP LIBOR) +4% per annum over 5 years before fees. In so doing we aim to achieve a positive return on a rolling 3 year basis. However, a positive return is not guaranteed and a capital loss may occur. The Sub-Fund may also invest in deposits, approved money market instruments, derivative instruments, forward transactions and collective investment schemes.

Important Information

• Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your investment can go down as well as up so you might get back less than you put in. This factsheet is for information purposes only. If there is information or terminology included that you would like to discuss, then please contact an adviser. Investors should refer to their policy documentation and supporting brochures for fund availability, investment strategy, any product information and charges. Every care has been taken in populating this output, however it must be appreciated that neither Broadridge, Prudential nor their sources guarantee the accuracy, adequacy or completeness of this information or make any warranties regarding results from its usage.
