Dealing

Minimum Investment	£1000
Minimum Top Up	£1000
Minimum Regular Saving	£50
Settlement Period: Buy	4 days
Settlement Period: Sell	4 days
Pricing Basis	Forward
Dealing Decimals	3

Distribution Dates

Ex dividend date(s)	Income payment date(s)
01 January	28 February
01 July	31 August

Aims

To provide capital growth over the long-term being five years or more. Five years is also the minimum recommended period for holding shares in this fund. This does not mean that the fund will achieve the objective over this, or any other, specific time period and there is a risk of loss to the original capital invested. The fund manager will invest the fund's assets in a global, diversified portfolio of investments across a range of asset classes including equities (company shares), fixed income (including bonds issued by governments and companies), property (including Real Estate Investment Trusts), commodities, cash and cash like investments. Exposure to equity and fixed income assets will be obtained through direct investment, but the investments in property and commodities will typically be indirect. There will be a broad spread of underlying assets, although equities and fixed income will be predominant. The fund manager may also invest in shares of collective investment schemes covering global markets and will usually maintain a portfolio of at least 100 individual investments. The fund manager will assess the broad economic environment, focusing on areas such as economic growth, inflation expectations and the outlook for interest rates, to determine the attractiveness of the asset classes in which the fund can invest. The fund may invest in derivatives and forward transactions (these are contracts whose value is based on the change in price of an underlying investment), for the purposes of efficient portfolio management including hedging (hedging is designed to offset the risk of another investment falling in price).

Important Information

• Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your investment can go down as well as up so you might get back less than you put in. This factsheet is for information purposes only. If there is information or terminology included that you would like to discuss, then please contact an adviser. Investors should refer to their policy documentation and supporting brochures for fund availability, investment strategy, any product information and charges. Every care has been taken in populating this output, however it must be appreciated that neither Broadridge, Prudential nor their sources guarantee the accuracy, adequacy or completeness of this information or make any warranties regarding results from its usage.
