#### **Aims**

The Fund aims to achieve a total return (the combination of income and capital growth) of at least 2-4%, per annum above the Sterling Overnight Index Average (SONIA), before any charges are taken, in any market conditions and over any three year period. The Fund aims to achieve this while seeking to minimise the degree to which the value of the Fund fluctuates over time (volatility), while also seeking to limit monthly losses. Managing the Fund in this way reduces its ability to achieve returns significantly above SONIA plus 2-4%. There is no guarantee that the Fund will achieve a positive return over three years, or any other, period, and investors may not get back the original amount

#### **Important Information**

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
