Launch date	13/07/2009	

### **Fund Charges**

Annual Management Charge (AMC)	1.30%
Further Costs	0.19%
Yearly Total	1.49%

#### **Aims**

Objective: The investment strategy of the fund is to purchase units in the Janus Henderson Cautious Managed Fund - the underlying fund.

Underlying Fund Objective: The fund aims to provide a return, from a combination of income and capital growth over the long term. To outperform the 50% FTSE All Share + 50% ICE Bank of America ML 5-15 Year sterling Non Gilt Index by 1.5% per annum, before the deduction of charges, over any 5 year period. The fund invests in shares (also known as equities) and bonds of governments, companies or any other type of issuer, in any country. At all times the investment in equities will be limited to a maximum of 60% of the value of the fund's portfolio and the fund will normally have a strong bias towards UK companies and bonds. Companies and bond issuers may be of any size, in any industry.

The fund may also invest in other assets including Collective Investment Schemes (including those managed by Janus Henderson) cash and money market instruments. The investment manager strategy will look to balance growth and income potential of equities with the more stable returns offered by bonds and cash. The strategy has the flexibility to adjust to changing market conditions by altering the level of exposure to the different asset classes. The investment manager may use derivatives (complex financial instruments) to reduce risk or to manage the fund more efficiently.

The fund is actively managed with reference to the 50% FTSE All Share + 50% ICE Bank of America ML 5-15 Year sterling Non-Gilt Index, which is broadly representative of the securities in which it may invest, as this forms the basis of the fund's performance target. The investment manager has a high degree of freedom to choose individual investments for the fund.

# **Fund Managers**

Name: Philip Payne
Manager of the underlying fund for: 5 years, 1 months

### **Ratings**

FE Crown

### Important Information

- Because of changes in exchange rates the value of your investment, as well as any money you take from it, can go down as well as up.
- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with gross income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
