Aims

To generate a positive absolute return over the medium to long term (3 to 5 years or more) irrespective of market conditions, whilst reducing the risk of losses. Invested capital is however at risk and there is no guarantee that the objective will be attained over any time period.

Performance target: To exceed the return of SONIA by 5% per annum, evaluated over rolling three year periods (before charges). The performance target is the level of performance that the management team hopes to achieve for the fund. There is however no certainty or promise that they will achieve the performance target. SONIA is currently used as a proxy for the return on cash deposits.

Important Information

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
