Prudential Risk Rating

**Lower to Medium Risk**

These funds may invest in corporate bonds or multi-asset strategies with a higher weighting in corporate bonds (and other comparable strategies).

These risk ratings have been developed by Prudential to help provide an indication of a fund's potential level of risk and reward based on the type of assets which may be held by the fund. Other companies may use different descriptions and as such these risk ratings should not be considered as generic across the fund management industry.

We regularly review our fund risk ratings, so they may change in the future. If, in our view, there is a material change in the fund's level of risk, for example due to a significant change to the assets held by the fund or in the way the fund is managed, we will provide information on the new risk rating. We recommend that you make sure you understand the risk rating of any fund before you invest.

You should also consider discussing your decision and the appropriateness of a fund's risk rating with an adviser.

Fund Managers

BLACKROCK

Name: BlackRock Team Managed  
Manager of the underlying fund for: 25 years, 3 months

Important Information

- Because of changes in exchange rates the value of your investment, as well as any money you take from it, can go down as well as up.
- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with gross income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
- This factsheet is intended for the trustees, sponsors, advisers and members of occupational pension schemes using Prudential group pension contracts and Prudential grouped personal pensions and Stakeholder pension contracts. Its purpose is to provide an insight into how investment markets and funds have performed over the period and is provided for information only. If you are not familiar with any of the investment terminology included, then please contact an adviser. Investors should refer to their scheme documentation (e.g. Fund Guide) for fund availability, investment strategy, any scheme information and charges. Every care has been taken in populating this output, however it must be appreciated that neither Broadridge, Prudential nor their sources guarantee the accuracy, adequacy or completeness of this information or make any warranties regarding results from its usage.

Commentary

Performance as at Q1 2025 - Over the month, gilt yields across the curve rose with UK 2-year yields rising 2bps, UK 5-year yields rising 11 bps, UK 10-year yields rising 19 bps, and UK 30-year yields also rising 19 bps. Elsewhere, US Treasury bond yields fell across the front end of the curve with a more pronounced decline compared to the rest of the curve. The 10-year point remained broadly unchanged, while the US 30-year yields rose by 8 bps. European government bond yields rose across the board. Most notably, the German 30-year yield rose by 39 bps. Yields were driven by continued geopolitical uncertainty around tariff impacts. In Europe, German defense spending announcements were the key yield drivers. Similarity in the UK, the focus was also on the fiscal spending and the Spring Statement from the Labour Government.
