## Aims

The investment strategy of the fund is to purchase units in the Baillie Gifford High Yield Bond Fund. That fund aims to produce a high level of return by investing in a diversified portfolio consisting primarily of sub-investment grade bonds. Currency forwards and derivatives may be used from time to time in keeping with the fund's objective with the intention of either protecting or enhancing the return on the fund. No more than 10% in value of the property of the fund will be invested in units of other collective investment schemes. More than 35% in value of the property of the fund may be invested in Government and Public securities.

### Important Information

- Source of portfolio data: FundsLibrary. Source of performance data: Financial Express (FE). Please remember that past performance is not a reliable indicator of future performance. The figures shown are intended only to demonstrate performance history of the fund and take no account of product charges, or the Annual Management Charge for any available PruFund funds.. The application of charges may impact the overall performance. Please also note that our charges may vary in the future and may be higher than they are now. Fund Performance is based upon the movement of the daily price and is shown as total return in GBP with net income reinvested. The value of your investment can go down as well as up and you may not get back the amount you put in.
- This factsheet is for information purposes only. If there is information or terminology included that you would like to discuss, then please contact an adviser. Investors should refer to their policy documentation and supporting brochures for fund availability, investment strategy, any product information and charges. Every care has been taken in populating this output, however it must be appreciated that neither FundsLibrary, Prudential nor their sources guarantee the accuracy, adequacy or completeness of this information or make any warranties regarding results from its usage.
