#### **Aims**

Objective: The investment strategy of the fund is to purchase units in the Morgan Stanley European Property Fund (Euro) - the underlying fund.

Underlying Fund Objective: The fund seeks to provide long term capital appreciation, measured in euro, by investing primarily in equity securities of companies in the European real estate industry located throughout Europe.

Companies in the real estate industry or closely related to the real estate industry may include companies principally engaged in the development and/or ownership of income-producing property; companies that operate, construct, finance or sell real estate; companies with substantial real estate related holdings and/or services or products related to the real estate industry, including, but not limited to, real estate management, brokers, building products and property technology; and collective investment vehicles with exposure to property, such as publicly quoted property unit trusts, all types of eligible closed-end Real Estate Investment Trusts (REITS) and undertakings for collective

The Investment Adviser actively integrates sustainability into the investment process by assessing key ESG risks and opportunities in its bottom-up stock selection process. The fund is denominated in euro.

### Important Information

- Because of changes in exchange rates the value of your investment, as well as any money you take from it, can go down as well as up.
- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in the fund's currency of denomination with gross income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
- This factsheet is for information purposes only. If there is information or terminology included that you would like to discuss, then please contact an adviser. Investors should refer to their policy documentation and supporting brochures for fund availability, investment strategy, any product information and charges. Every care has been taken in populating this output, however it must be appreciated that neither Broadbridge, Prudential nor their sources guarantee the accuracy, adequacy or completeness of this information or make any warranties regarding results from its usage.
