**Aims**

Objective: The investment strategy of the fund is to purchase the L&G Property fund – the underlying fund.

Underlying Fund Objective: The fund aims to provide a combination of income and capital growth by investing at least 60% of its assets in property and property-related assets, although the exposure is typically expected to be in the region of 80% - 90%, this may vary as a result of factors such as market conditions. The fund may obtain its exposure to property through a combination of direct and indirect holdings with exposure across industry sectors (including but not limited to retail, offices, industrial, leisure, healthcare and residential) and geographies. Direct property holdings will consist of typically 45% of the funds assets, will be in property located in the UK. The fund may obtain indirect exposure to property located worldwide through listed transferable securities (such as real estate investment trusts) and collective investment schemes including those managed or operated by Legal & General. The fund may also invest in money market instruments (such as treasury bills), permitted deposits, bonds (issued by governments and public bodies), money market funds and cash. The fund may use derivatives to reduce risk or cost or generate additional capital or income with no, or an acceptably low level of risk.

**Important Information**

- Some funds may invest in 'underlying' funds or other investment vehicles. The performance of our fund, compared to what it's invested in won't be exactly the same. That can be due to additional charges, cash management (needed to help people to enter and leave our fund when they want), tax and the timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).
- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of fund charges and further costs, but take no account of product charges, or any Annual Management Charge paid for by the deduction of units. Charges and further costs may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in the fund's currency of denomination with gross income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.

Important Information

- This fund invests in property and land. This can be difficult to sell - so you may not be able to sell/cash in this investment when you want to. We may have to delay acting on your instructions to sell your investment. Other than in very exceptional circumstances we would not expect delays to be longer than six months for investments in property and land.
- You should look upon your investment in the property fund as being long-term, so 10 years or more. There are large costs when we buy and sell property. The allowance for these costs amongst other factors can lead to short-term falls in the price of units in the Property fund. The return achieved from investing in property is a combination of rental income and changes in the value of the property; which is generally a matter of a valuer's opinion rather than fact.
