

BNY Mellon Global Dynamic Bond Fund

Institutional Shares W (Inc.)

INVESTMENT OBJECTIVE

To maximise the total return, comprising income and capital growth. The Fund is managed to seek a minimum return of cash (SONIA (30-day compounded)) +2% per annum over five years before fees. In doing so, it aims to achieve a positive return on a rolling three year basis (meaning a period of three years, no matter which day you start on). However, a positive return is not guaranteed and a capital loss may occur.

PERFORMANCE DISCLOSURE

Past performance is not a guide to future performance. The value of investments can fall. Investors may not get back the amount invested. Income from investments may vary and is not guaranteed.

5 YEAR CUMULATIVE PERFORMANCE (%)

ANNUAL PERFORMANCE TO LAST QUARTER END

From	Mar 2019	Mar 2020	Mar 2021	Mar 2022	Mar 2023
To	Mar 2020	Mar 2021	Mar 2022	Mar 2023	Mar 2024
Fund Return (%)	-0.18	5.51	-2.43	-2.85	3.30
Income Paid ¹	27.98	23.17	25.59	31.43	46.44

	2019	2020	2021	2022	2023
Fund	5.62	3.17	-0.81	-6.85	3.30
Performance Benchmark	0.72	0.21	0.05	1.26	4.63

Source for all performance: Lipper as at 31 March 2024. Fund Performance for the Institutional Shares W (Income) calculated as total return, including reinvested income net of UK tax and charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available upon request.

The benchmark was updated on 01/11/2021, performance prior to the change is shown using the previous benchmark. The share class can be different to that of the base currency of the fund. For CHF it is SARON CHF, For EUR it is EURIBOR, For GBP it is GBP SONIA, For USD it is USD SOFR, For SGD it is SIBOR SGD.

¹For Income Share Classes, Income Paid is the cash amount distributed, net of UK tax, for £1000 invested at the beginning of each period. This is for illustrative purposes only and does not take into account effects of inflation or other factors that may have a negative impact on an investment.

INVESTMENT MANAGER

Newton Investment Management: Newton aims to deliver outcomes for its clients across active equities, income, absolute return, multi-asset, thematic and sustainable strategies. Its capabilities are driven by its global investment research platform which harnesses a breadth of both fundamental and quantitative research.

PERFORMANCE BENCHMARK

The Fund will measure its performance before fees against SONIA (30-day compounded) +2% per annum over five years as a target benchmark (the "Benchmark"). SONIA is a nearly risk-free rate meaning no bank credit risk is included, the rate can rise or fall as a result of central bank policy decisions or changing economic conditions. The Fund will use the Benchmark as a target for the Fund's performance to match or exceed because it is representative of sterling cash and the Fund's investment objective is to seek a minimum return of sterling cash +2% per annum. The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments, subject to the investment objective and policies as disclosed in the Prospectus.

FUND RATINGS

Ratings should not be used for making an investment decision and do not constitute a recommendation or advice in the selection of a specific investment or class of investments.

DISTRIBUTION YIELD (AS AT 31 MARCH 2024)

Share class	Yield
Institutional Shares W (Income)	4.98%

Distribution yield reflects the amounts that a fund may be expected to distribute over the forthcoming twelve months as a percentage of the fund's current price as at the date shown. Distribution yield is based on a snapshot of the portfolio as at the date shown. It does not include the impact of any initial charge and investors may be subject to tax on distributions.

KEY RISKS ASSOCIATED WITH THIS FUND

- There is no guarantee that the Fund will achieve its objectives.
- The performance aim is not a guarantee, may not be achieved and a capital loss may occur. Funds which have a higher performance aim generally take more risk to achieve this and so have a greater potential for returns to vary significantly.
- This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- Investments in bonds/money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.
- Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.
- The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.
- Emerging Markets have additional risks due to less-developed market practices.
- The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.
- The Fund may invest in China interbank bond market through connection between the related Mainland and Hong Kong financial infrastructure institutions. These may be subject to regulatory changes, settlement risk and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.
- Contingent Convertible Securities (CoCo's) convert from debt to equity when the issuer's capital drops below a pre-defined level. This may result in the security converting into equities at a discounted share price, the value of the security being written down, temporarily or permanently, and/or coupon payments ceasing or being deferred.
- The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.
- Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.
- A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

The fund can invest more than 35% of net assets in different Transferable Securities and Money Market Instruments issued or guaranteed by any EEA State, its local authorities, a third country or public international bodies of which one or more EEA States are members.

Before subscribing, investors should read the most recent Prospectus and KIID for each fund in which they want to invest. Go to www.bnymellonim.com

The Prospectus and KIID are available in English and in an official language of the jurisdictions in which the Fund is registered for public sale.
