## Morningstar Rating<sup>†</sup>

## Fund objective and policy

The Fund aims to provide medium to long term capital growth. The Fund is actively managed. It is not constrained by its comparator benchmark, the FTSE All World Developed Europe ex UK TR Index, and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. The Fund aims to achieve its objective by investing primarily in shares of European companies (which, in the context of the Fund's primary investment excludes the UK). The Fund may be invested in any industry sector and in any continental European country. The Fund generally invests in large companies and on the main European markets but may also invest in smaller or medium sized companies and on smaller markets.

## Risk warning

The value of your investments and any income from them can go down as well as up and you may not get back the original amount invested. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.

## Investment Style

The Fund currently exhibits a growth style bias relative to its benchmark. This means the majority of the fund invests in companies with above average growth rates, or good growth potential (based on indicators such as earnings and sales growth) relative to its benchmark. A fund's investment style may change over time

## Glossary

<b>Active Engagement Report</b>	We define engagement as dialogue between investors and companies with a focus on encouraging companies to address strategic issues including environmental, social and governance factors. The objective of such dialogue with companies is to reduce risk and support long-term performance. The table sets out, for the fund, the number of companies we have engaged with; the number of countries covered and the individual engagement themes.
<b>Quartile Ranking</b>	A measure of performance where all funds within the sector are ranked and split into 4 groups. The best 25% performing funds are in the first (1) quartile, the next 25% into the second (2) quartile and the worst 25% into the fourth (4) quartile.
