Reference Index key features

The MSCI World Select ESG Screened Index aims to reflect the performance of the following market:

- Large and mid-cap companies from global developed markets
- Securities issued by entities failing to meet the following ESG standards, amongst others, are excluded: are associated with controversial weapons, are assigned an MSCI ESG Rating of 'CCC' or are unrated, derive certain revenues from tobacco, conventional weapons, nuclear weapons, civilian firearms, thermal coal, unconventional and/or arctic oil and gas extraction, and palm oil; and any issuer with an MSCI Controversies Score of 0
- Reduced greenhouse gas intensity relative to the parent index
- Reviewed on a quarterly basis

Additional information on the index, selection and weighting methodology is available at <https://www.msci.com/>.

Key Risks

- **The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss.**
- The Fund is exposed to the currency markets which may be highly volatile. Large price swings can occur in such markets within very short periods and may result in your investment suffering a loss.
- The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.
